Overview & Current Events

The Gap Inc. is an American clothing and accessories retailer with a presence worldwide. The Company was founded in 1982 by Nick Taylor, Donald Fisher, and Doris F. Fisher and is headquartered in San Francisco, California. The Company has a market capitalization of \$9.2 billion. The Gap operates six business lines: Gap, Banana Republic, Old Navy, Intermix, Hill City, and Athleta. The Company has 3,814 stores worldwide.

The Company reported second-quarter and Fiscal Year (FY)2021 earnings on August 26, 2021. GPS had a tremendous second quarter. The Company brought in \$4.2 billion in net sales, the highest second quarter sales in over a decade. Sales were up 29% versus 2020 and up 5% compared to 2019 pre-COVID levels. Comparable sales increased 12% for the second quarter versus 2019. The Company estimates that COVID-related closures in markets outside the U.S. resulted in approximately a 2% sales decline versus 2019. Also, strategic permanent store closures and recent divestitures of the Janie & Jack and Intermix business reduced net sales by 8% compared to 2019 2Q. Reported earnings per share for the quarter were \$0.67 and \$0.70 on an adjusted basis. The gross margin also saw an increase of 43.3%, increasing 440 basis points compared to 2Q20. The gross margin increase was driven by online growth, store closures, and rent negotiations. Gross profit was up 17% to \$1.82 billion, an increase of \$267 million compared to 2Q2020. The Company ended the second quarter with \$2.7 billion in cash, cash equivalents, and short-term investments. For the first six months of the year, free cash flow was \$523 million. Capital expenditures for the first six months were only \$269 million.

Despite the uncertainty remaining due to COVID-19, the management team is providing an FY2021 financial outlook. Gap expects diluted earnings to be in the range of \$1.90 to \$2.05 per share for the year. Net sales to be about 30% percent range versus 2020.

Growth on a Per-Share Basis

Year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2026
EPS	\$1.56	\$2.33	\$2.74	\$2.87	\$2.23	\$1.69	\$2.14	\$2.59	\$0.93	(\$1.78)	\$2.15	\$2.62
DPS	\$0.45	\$0.49	\$0.63	\$0.86	\$0.91	\$0.92	\$0.92	\$0.97	\$0.97	\$0.97	\$0.48	\$0.48
Shares¹	485.0	463.0	446.0	421.0	397.0	399.0	389.0	378.0	371.0	374.0	376.0	376.0

The Gap has been experiencing operating margin compression over the past ten years. Operating margins ranged between 9.9% and 13.4% during the period from 2009 to 2014. The subsequent four years saw operating margins decrease to a range of 7.7% and 9.6%. For FY2020, the operating margin was (6.25)%. As a result of rising operating costs through store closures and initiatives to revitalize its portfolio of brands, operating expenses will increase, resulting in lowered profit expectations. However, we believe that diluted earnings per share will start to increase over the next three years. Earnings are expected to be \$2.15 per share for the Company in FY2021. This compared favorably to what the Company earned in FY2020 and in FY2019. We do not expect GPS to increase its dividend in the near future.

Valuation Analysis

Year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	Now	2026
Avg. P/E	12.4	13	14.4	14.5	15.3	12	12.4	11.3	10.1	---	10.9	13.0
Avg. Yld.	2.3%	1.6%	1.6%	2.1%	2.7%	3.8%	3.5%	3.3%	4.9%	---	2.1%	1.4%

The 2019 P/E of 10.1x fully reflects an extended period of slow growth and operational headwinds. We expect the effects of revitalizing the brands and optimizing store operating profits to begin after completing store closures in 2021. Consumer confidence has also taken a hit because of COVID-19. Hence, we expect a 5-year growth estimate of 4% over the next five years. This growth estimate will change as time goes on. Considering expectations of a marginal earnings decline in the near term and subsequent growth after that, we assume a fair 2026 P/E of 13x instead of the historical average PE of 11.5x. The Company has a PE of 10.9, which is lower than our fair value PE.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2026
Payout	29%	21%	23%	30%	41%	54%	43%	37%	104%	-54%	22%	18%

The Gap Inc. manages a portfolio of brands and has the size and capital strength to acquire new brands to bolster its business or engage in aggressive share repurchases. Inorganic growth through acquisitions may represent an upside to investors. The Gap can also capitalize on the retail industry's weaknesses by buying distressed brands and assets. An example would be the purchase of high-end children's clothing line Janie and Jack from a bankrupt retailer, Gymboree, for \$35 million. The Company's balance sheet has deteriorated with a debt/equity ratio of 2.4 for 2Q21 compared to 2.1 in FY19. However, during the last financial crisis, Gap displayed resiliency in its business. It reported a net income of \$967 million in 2008 and \$1,102 million in 2009 while maintaining its dividend during those years.

Final Thoughts & Recommendation

The Company is undergoing a transformation in which costs will be incurred to restructure the business and grow through organic initiatives or inorganic acquisitions. We estimate 4% EPS growth annually over the next five years. The Gap has a 9.3% expected total return. This is due to lower valuation and higher expected earnings for FY2021. Thus, we rate the company a Buy for speculative investors.
