Overview & Current Events

John Wiley & Sons is a publishing and research company whose operations are split into three segments: Research, Publishing, and Solutions. The company offers scientific, technical, medical and scholarly research journals, reference books, databases, clinical decision support tools, laboratory manuals, scientific and education books, and test preparation services. Its services also include learning, development and assessment services for businesses and professionals and online program management services for higher education institutions. John Wiley & Sons was founded in 1807, is headquartered in Hoboken, NJ.

John Wiley & Sons reported its first quarter (fiscal 2022) earnings results on September 2. The company announced that its revenues totaled \$490 million during the quarter, which represents an increase of 13% versus the prior year's quarter. John Wiley & Sons beat the analyst consensus estimate easily, by \$20 million.

Earnings-per-share came in ahead of the analyst consensus, at \$0.54, which was up by a very solid 17% year over year, which is encouraging for the company that has been battling with low profitability in the recent past. John Wiley & Sons generated earnings-per-share of \$2.92 during fiscal 2021, but the company is forecasting significantly higher profits for the current year. Management is expecting earnings-per-share to come in between \$4.00 and \$4.25, which suggests growth of around 50% versus the previous fiscal year. Free cash flow, meanwhile, is forecasted at \$200+ million.

Growth on a Per-Share Basis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
EPS	\$2.92	\$3.05	\$3.26	\$2.70	\$3.00	\$3.05	\$3.43	\$2.96	\$2.40	\$2.92	\$4.12	\$5.13
DPS	\$0.96	\$1.00	\$1.16	\$1.20	\$1.24	\$1.28	\$1.30	\$1.32	\$1.36	\$1.37	\$1.38	\$1.60
Shares³	59	59	59	58	57	57	57	57	56	56	56	54

John Wiley & Sons has a mediocre earnings-per-share growth track record. Its profits increased during the last financial crisis, and between 2015 and 2018, John Wiley & Sons' earnings-per-share rose substantially. Fiscal 2019 was a down year for the company, though, and 2020 was even weaker, although that was, at least partially, due to COVID-19.

John Wiley & Sons' focus on publishing research journals, scientific books, and the like has made the company less vulnerable to other forms of entertainment. Since 2012, total unit sales of books have been declining in the US, but as John Wiley & Sons' books and journals are not read for entertainment, but rather due to being required reading for students, professionals, and scientists, the company has been relatively immune to this trend. The company has successfully transformed itself, as ~75% of all revenues were generated from digital products during the last year. John Wiley's research segment has performed well in recent years thanks to growth from journal subscriptions and ongoing expansion in licensing & reprints. The subscription model results in recurring, non-cyclical revenues, which is why John Wiley & Sons' results are less seasonal than those of many of its peers. Since schools and universities have amended their operations due to the current pandemic, lower textbook sales have been a recent headwind.

Valuation Analysis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Now	2027
Avg. P/E	14.7	16.1	18.1	18.5	17.9	19.1	18.4	15.9	15.0	19.5	13.8	15.0
Avg. Yld.	2.2%	2.0%	2.0%	2.4%	2.3%	2.2%	2.0%	2.8%	3.8%	2.4%	2.4%	2.1%

John Wiley & Sons' shares have risen since our last update, but due to the massive earnings growth forecasted for the current fiscal year, they have actually become less expensive on an earnings multiple basis. We believe that shares do have some upside potential from the current level of around 14x this year's expected net profits.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
Payout	32.9%	32.8%	35.6%	44.4%	41.3%	42.0%	37.9%	44.6%	56.7%	46.9%	33.5%	31.9%

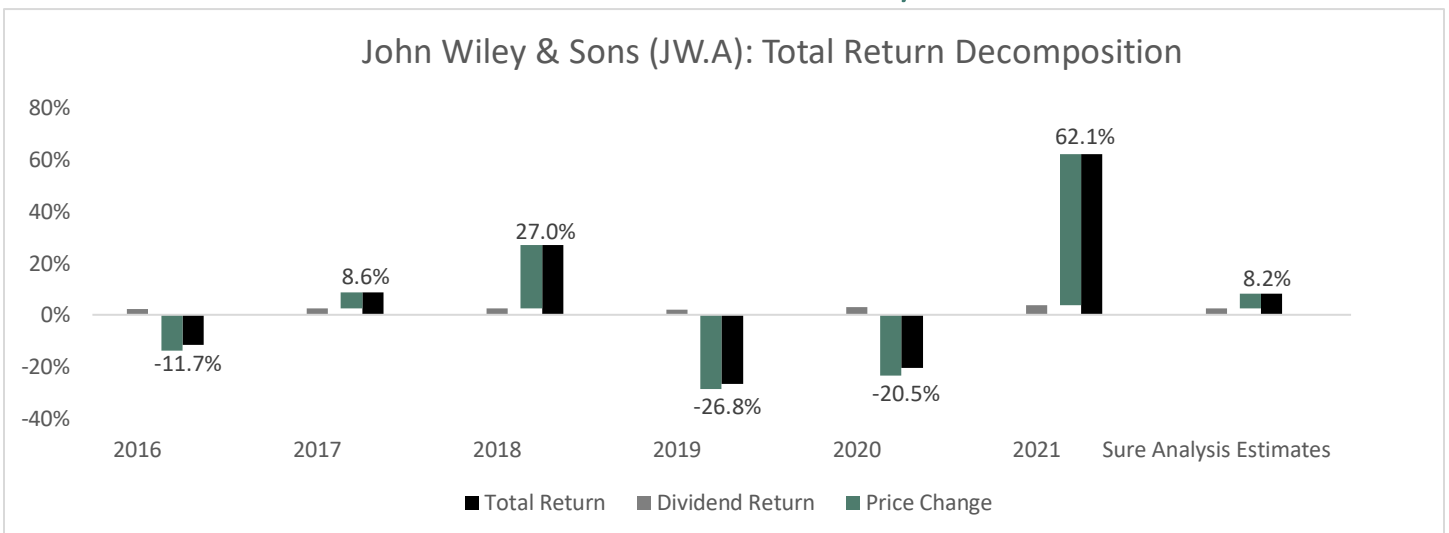

John Wiley & Sons' dividend payout ratio was never especially high. Most of the time, it remained below 50%. John Wiley & Sons has raised its dividend continually throughout the last decade. We believe that the dividend is relatively safe, especially as John Wiley's dividend was not in danger during the Great Recession, either.

Based on its successful ongoing transformation of its business model towards digital products, and due to John Wiley & Sons' strong position in the non-cyclical scientific and professional markets, there is little risk to its business model. Since a substantial portion of its revenues are generated via journal subscriptions, which results in recurring revenues, and because demand from the scientific community is not overly cyclical, John Wiley & Sons performed quite well during the last financial crisis. John Wiley & Sons will likely remain relatively insulated versus changes in the publishing industry. Peers that are more focused on entertainment books, such as Scholastic, are impacted to a much more significant degree by changes in consumption behavior, such as the shift from reading books to more screen time.

Final Thoughts & Recommendation

John Wiley & Sons is active in an attractive niche of the publishing industry. Fiscal 2021 was a solid year for the company, and the long-term outlook is not bad, as investments are starting to pay off. Management's outlook for fiscal 2022 is pretty strong, as adjusted earnings are forecasted to rise sharply. Shares are trading slightly below fair value right now, which is why we rate the stock a hold for now, as total returns are forecasted to be solid, but not great.
