

Good morning,

Since we originally launched the Portfolio Tracker function of the Sure Analysis service, our most common piece of feedback is that the portfolio tracker does not work for companies outside of the Sure Analysis investment universe. We are excited to announce that this has been fixed! The Portfolio Tracker should now work for all securities from the following indices:

- Sure Analysis Research Database (as before)
- S&P 500 Index
- Russell 2000 Index

If you own any stocks that still are not functioning in the Portfolio Tracker, please email us and we can add them manually.

As of now, the top 10 stocks in the [Sure Analysis Research Database](#) with A and B ratings for Dividend Risk are:

1. [Bank OZK \(OZK\)](#)
