The following message is from Lyn Alden, whom we have an affiliate agreement with. Lyn Alden is a past Sure Analysis Research Database writer who does exceptional investing analysis and research. We are happy to offer you a discount on her premium research service, as described below.

Last Chance To Lock In Your Special Discount On Lyn Alden's Premium Research Service

This is the final day for Sure Dividend readers to get 25% off Lyn Alden's premium research service.

Her service provides stock ideas along with economic insights ahead of the curve to give readers a broad awareness of the risks and opportunities for portfolio management.

She warned readers before this recent stock market crash about overvalued conditions, a technical sell signal, and troubling COVID-19 impacts in China in late January (during her first-ever unscheduled report, between normally-scheduled reports). She then warned readers again less than 8% down into the crash in another unscheduled report in late February, showing that it was still a good time to make sure their asset allocation was risk-appropriate for their situation.

Lyn's research combines deep-dive analysis of individual stocks, along with a broad overview of how various asset classes are progressing along the business cycle. In addition to U.S. stocks, she covers bonds, precious metals, and foreign markets.

She focuses on several key indicators "under the surface" that institutional portfolio managers look at, which you won't find in many retail research products, and translates them into plain English so that you know what's going on. Especially in a time like this when big shifts are happening, broad awareness of macro conditions is important even for individual stock investors.

Her service is $199/year but Sure Dividend readers can use the discount code **Sure20** to get 25% off. This price remains locked into effect for as long you remain

a member.

The discount code **Sure20** applies until today at 7pm ET.

Feel free to contact Lyn at support@lynalden.com with any questions. Any members unsatisfied with the service can request a full refund within the first month.
