Overview & Current Events

Nordson was founded in 1954 in Amherst, Ohio by brothers Eric and Evan Nord, but the company can trace its roots back to 1909 with the U.S. Automatic Company. Today the company has operations in over 35 countries and engineers, manufactures, and markets products used for dispensing adhesives, coatings, sealants, biomaterials, plastics, and other materials, with applications ranging from diapers and straws to cell phones and aerospace. On March 30th, 2020, Nordson announced that the company was reorganizing into two segments: Industrial Precision Solutions (IPS) and Advanced Technology Solutions (ATS). The \$13 billion market cap company generated \$2.1 billion in sales last year.

On May 23rd, Nordson released second quarter fiscal 2022 results for the period ending April 30th, 2022. (Nordson's fiscal year ends October 31st.) For the quarter the company reported sales of \$635 million, an 8% increase compared to Q2 2021, driven by organic volume growth of 7% and a favorable acquisition impact. The Industrial Precision Solutions segment saw sales increase 6%, while the Advanced Technology Solutions portion of the business was up 10%. The company generated \$1.88 per diluted share, compared to \$2.12 in the same prior year period. Nordson also generated \$2.43 per share in adjusted earnings, a 15% increase over the prior year quarter's adjusted EPS.

Nordson updated its 2022 outlook, anticipating sales to be up 8% to 9% and earnings-per-share growth of 18% to 21% (from 14% to 18% previously), for a mid-point adjusted EPS of \$9.25 (19.5% YoY growth from fiscal 2021). We have updated our forecast accordingly.

Growth on a Per-Share Basis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
EPS	\$3.45	\$3.42	\$3.84	\$3.58	\$4.68	\$5.37	\$5.94	\$5.87	\$5.48	\$7.74	\$9.25	\$11.81
DPS	\$0.53	\$0.63	\$0.80	\$0.90	\$0.99	\$1.11	\$1.25	\$1.43	\$1.53	\$1.68	\$2.04	\$3.00
Shares³	64	64	62	57	57	58	58	58	58	58	58.0	59.0

From 2012 through 2021 Nordson grew earnings-per-share by a solid 9.4% annually. However, earnings dipped during the last recession and fell again in 2020, but the company rebounded sharply and produced impressive results in 2021.

Nordson lays out an investing thesis for itself noting items like best-in-class technology that increases customer production and reduces cost, a global service model, a balanced revenue stream and an excellent business track record. Areas for growth include increased use of disposable products, productivity investments, mobile computing, increased medical device usage and lightweight / lean manufacturing of vehicles, all of which benefit from the company's adhesive and coating segments. We do not agree with increased plastic use being a long-term growth avenue in the U.S. (consumer behavior seems to be shifting away from this) but emerging market growth does appear to be a long-term tailwind.

We are using the midpoint of management's new guidance, \$9.25 per share, for our 2022 earnings expectation. In addition, we are forecasting 4.5% growth off a higher base, driven by top line improvement and small margin growth.

Valuation Analysis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Now	2027
Avg. P/E	15.0	20.0	19.5	21.0	17.0	22.0	22.7	22.8	31.6	28.8	23.4	22.0
Avg. Yld.	1.0%	0.9%	1.1%	1.2%	1.2%	0.9%	0.9%	1.1%	0.9%	0.7%	0.9%	1.2%

Over the past decade shares of Nordson have traded at an average P/E ratio of about 22, with the multiple picking up materially as of late. While we believe a premium valuation is fair considering the company's strong past and prospects, the current valuation is still beyond our estimation of fair value. Should shares return to 22 times earnings, as has been more typical, this could create a headwind for future returns.

The dividend does not add materially to the investment thesis, but Nordson has a storied record of dividend increases. The current dividend yield is not impressive, but the low payout ratio and strong underlying profit machine show a clear path to many dividend increases ahead.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2020	2022	2027
Payout	15%	18%	21%	25%	21%	21%	21%	24%	28%	22%	22%	26%

Nordson's main competitive advantage is in its enormous installed base of customers around the world. The company provides niche, but critical, pieces involved in a variety of manufacturing processes. As such, it is difficult for competitors to compete away the company's position. Of course, this does not mean that Nordson is immune from recessions. During the last crisis, earnings fell -32% for the year, before rebounding strongly. Given the company's dependence on worldwide growth, another downturn could dampen the company's near-term growth forecasts. Indeed, 2020 proved to be a down year, but fiscal 2021 results were very strong, and 2022 guidance is encouraging.

Final Thoughts & Recommendation

Shares are down 14% year-to-date. Nordson is the type of company that you would love to own at the right price. The company's growth prospects appear solid and Nordson's past record, both on the earnings and dividend front, are enviable. However, we are not enthused by today's valuation, trading at historically high level. We are forecasting a small expected annualized return in the next five years of 4.3%, stemming from a 4.5% growth rate and a 0.9% dividend yield offset by the potential for a valuation headwind. Shares earn a hold rating due to lackluster total returns expectations.
