Overview & Current Events

National Bank of Canada (or simply National Bank) is the sixth-largest bank in Canada behind the Big Five banks with Royal Bank of Canada (RY) and Toronto-Dominion Bank (TD) leading at the top. National Bank's historical roots go as far back as 1859. Since 1993, it has maintained or increased its dividend per share every year. All figures in this report are in U.S. dollars unless otherwise specified.

The bank reported results for fiscal Q2 2022 on 05/27/2022. It performed strongly across all segments. Led by adjusted revenue growth of 9% to C\$2,491 million, National Bank reported adjusted earnings-per-share ("EPS") growth of 13% to C\$2.55 against fiscal Q2 2021. Management kept a good control of non-interest expenses that went up 8%. Additionally, it had industry-leading adjusted return on equity ("ROE") of 20.6%, despite down from 22.0% a year ago. The bank's capital position was strong with a Common Equity Tier 1 ratio at 12.9%, up from 12.2% a year ago.

The fiscal year-to-date results provide a bigger picture. Adjusted revenue growth of 10% to C\$5,021 million, adjusted net income growth of 17% to C\$1,825 million, and adjusted EPS growth of 18% to C\$5.19. National Bank also increased its quarterly dividend per share ("DPS") by 5.7%, equating to an annualized payout of C\$3.68. We increased our 2022 EPS estimate to US\$7.67.

Growth on a Per-Share Basis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
EPS	\$3.97	\$3.95	\$3.93	\$3.51	\$3.26	\$4.23	\$4.51	\$4.81	\$4.68	\$7.04	\$7.67	\$10.26
DPS	\$1.56	\$1.60	\$1.65	\$1.52	\$1.63	\$1.77	\$1.84	\$2.00	\$2.11	\$2.26	\$2.88	\$4.23
Shares¹	323	326	329	337	338	340	335	334	336	342	344	354

From 2012 to 2021, National Bank compounded its EPS by 9.6% in CAD\$. In US\$, National Bank compounded its EPS by 6.6%. These are above average when compared to its bigger peers. Stellar earnings growth should also lead to above-average dividend growth. In the period, its dividend growth rate was 7.0% in CAD\$ but only 4.2% when translated into US\$. With about 80% revenue exposure to Canada and 55% revenue exposure to Quebec, the bank's growth rate is tied closely to the economic health of Canada and in particular to Quebec. Quebec is the second most populous province in Canada and contributes about 20% of Canada's GDP. National Bank generates 19% of revenue from the United States and Cambodia, which help contribute to higher growth long term. After the regulator, Office of the Superintendent of Financial Institutions, loosened its restrictions in November 2021, National Bank stock increased its quarterly dividend by 22.5% -- the largest increase among the Big Six Canadian Banks second only to Bank of Montreal's (BMO) dividend hike. We use a 6% EPS growth rate and 8% dividend growth rate through 2027.

Valuation Analysis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Now	2027

National Bank of Canada (NTIOF)

Updated June 4th, 2022 by Kay Ng

National Bank has traded at an average price-to-earnings ratio of 10.9 from 2012-2021. However, the investment community has steadily discovered the bank's quality and its average P/E ratio from 2017-2021 was 11.0. We think that if National Bank continues to maintain its way of doing business and benefit from rising interest, it could further expand its P/E to 11.5 by 2027. Using our 2022 EPS estimate, the bank trades at a P/E of 10.1 – which indicates a slight discount.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
Payout	39%	41%	42%	43%	50%	42%	41%	42%	45%	32%	38%	41%

National Bank has a dominant position in Quebec. It also benefits from the effective regulation of the Canadian banking system. The World Economic Forum ranked Canada's banks as among the soundest in the world for the past decade or so, which highlights the fact that Canadian banks — National Bank included — are well capitalized and well managed.

Like all financial institutions, the bank's balance sheet primarily consists of debt, largely in the form of deposits. Compared to the Big Five Canadian banks, National Bank's payout ratio tends to be a tad more conservative. It should keep paying healthy dividends. We believe a dividend growth rate of about 8% through 2027 is possible. Notably, this bank has been more resilient than its bigger Canadian banking peers through the COVID-19 pandemic, which suggests management has been doing a great job in management risk while being focused on returns.

Final Thoughts & Recommendation

We forecast defensive National Bank with 12.0% in total returns annually over the next five years, consisting of a yield of 3.7%, 6.0% earnings-per-share growth, and a 2.7% tailwind from valuation expansion. We rate the stock a buy, especially for conservative investors looking for a low-risk dividend payer.
