Overview & Current Events

ManpowerGroup Inc. is a leading global workforce solution company with a well-established network of 2,500 offices in 75 countries and territories. Manpower owns hundreds of subsidiary companies globally and serves large and small organizations through the following brands: Manpower, Experis, and Talent Solutions. The company is one of the three leading diversified global recruitment providers alongside Adecco and Randstad, with each player possessing about 5%-6% of the market share. The major geographic markets for Manpower include the United States (13% of 2021 revenues); Southern Europe (45%); Northern Europe (23%); Asia Pacific/Middle East (12%); other parts of the Americas (7%).

On 19th July 2022, the company announced Q2 2022 results reporting revenue of \$5.07 billion for the quarter, down by 3.8% compared to \$5.27 billion in Q2 2021. However, the company's gross profit increased by 7.1% YoY, as the company's gross profit for the quarter reached \$921.2 million compared to \$860.1 million in Q2 2021. The diluted earnings during the quarter stood at \$2.29 per share compared to \$2.02 per share in Q2 2021. The management noted that the results in the current quarter were impacted by the strengthening of the dollar against other currencies, which contributed to a decline in revenues. The increase in gross margin was supported by a high level of recruitment activity and increasing revenue contribution by high-margin brands like Experis and Talent Solutions. The management elaborated that the current quarter included integration costs from the U.S. Experis acquisition. The EPS during Q2 2022 was reduced by \$0.04 due to these costs and the adjusted diluted EPS for the company was \$2.33 in Q2 2022.

While the war in Ukraine is undoubtedly an adverse event for the company, particularly in the automotive supply chain, the management is seeing strong labor demand in the coming quarters, especially in the IT, finance, and manufacturing sectors, and the skilled talent shortages to persist which will benefit the company and its portfolio services and solutions. Therefore, the shortage of skilled talent and high recruitment activity presents a good opportunity for growth for the company in the future.

The company's management anticipates the Q3 2021 EPS to range between \$2.19 and \$2.27.

Growth on a Per-Share Basis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
EPS	\$2.95	\$4.44	\$5.30	\$5.40	\$6.27	\$6.95	\$8.56	\$7.72	\$0.41	\$6.91	\$8.46	\$10.79
DPS	\$0.86	\$0.92	\$0.98	\$1.60	\$1.72	\$1.86	\$2.02	\$2.18	\$2.26	\$2.52	\$2.72	\$3.44
Shares	76.7	79.4	78.1	73.0	67.0	66.1	60.8	58.7	55.6	53.6	53.0	44.2

ManpowerGroup has steadily grown its business over the last decade and achieved EPS growth at a CAGR of 9.9% during the past nine years. In addition, the company has consistently reduced its outstanding share capital through share buybacks increasing shareholder returns. Manpower is expected to post an EPS between \$8.22-\$9.58 for the current fiscal year, reflecting that the business is back to pre-pandemic levels. Moreover, the company will benefit from recent digitization efforts and acquisitions to further diversify its offerings. Due to the favorable outlook for the company, we are forecasting a 5.0% growth in EPS over the next five years which will lead to our estimated EPS of \$10.79 by 2027.

Valuation Analysis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Now	2027
Avg. P/E	13.4	14.6	14.3	15.8	12.2	15.9	11.0	11.5	181.4	15.4	9.4	13.0
Avg. Yld.	2.2%	1.4%	1.3%	1.9%	2.2%	1.7%	2.1%	2.5%	3.0%	2.4%	3.4%	2.5%

Manpower has been currently trading at a forward P/E of 9.4, much lower than its normalized long-term 9-year average P/E of 13.8 and normalized five-year average P/E of 13.2. The stock has moved in tandem with the S&P 500 reporting a decline of 17.9% YTD. We believe that the company's strategic positioning is good and will continue to thrive in the near future. Hence there is a significant upside from the current price once recession concerns ease and the market re-assigns a fairer P/E to the stock. We have estimated the stock will trade at a P/E ratio of 13.0 by 2027, which will result in a fair value price of \$140 by the end of 2027, providing an upside potential of 77% from the current market price.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
Payout	29%	21%	18%	30%	27%	27%	24%	28%	551%	36%	32%	32%

Manpower has provided consistent shareholder returns and paid dividends with a 10-year normalized payout ratio averaging 27%. We expect the company to maintain its healthy payout ratio in the future and have assumed a payout ratio of 32% going forward. Additionally, the company also made share repurchases of \$210.0 million, \$264.7 million, and \$203.0 million over the past three years, and another \$160 million in the last quarter. Even though the staffing industry is highly competitive and cyclical in nature, Manpower has an established centralized database to match employers with best-suited candidates, but we expect the company to continue to face fierce competition from other global staffers like Randstad, Adecco, and Randstad, which will inhibit the company's ability to gain market share.

Final Thoughts & Recommendation

We expect the labor market to remain tight in the coming years. Before the COVID-19 pandemic, the U.S. labor market was tight as the headline unemployment rate fell to 3.6%. This level skyrocketed during the first half of 2020, but it has now come back to below pre-pandemic rate of 3.6%, and we expect it will stay near this level in the near term. In addition, the trend of hybrid working models and the shift toward recruitment outsourcing by employers is expected to continue, which will benefit the company. Therefore, our buy rating on the stock is premised upon the 14.5% annualized total returns for the medium-term, derived from the forecasted earnings-per-share growth of 5.0% and 3.4% dividend yield.
