Overview & Current Events

AmerisourceBergen was formed in 2001 by the merger of AmeriSource and Bergen Brunswig. Today, the company is one of the largest healthcare distributors in the U.S., along with Cardinal Health and McKesson. AmerisourceBergen provides pharmaceutical products and business solutions to a variety of customers, which include healthcare providers, veterinary practices, and livestock producers. AmerisourceBergen also services global manufacturers to improve supply chain efficiency. More than 90% of the company's revenue comes from its pharmaceutical segment. AmerisourceBergen has a market cap of \$30 billion and generated \$214 billion in revenue last year.

On November 4th, 2021, AmerisourceBergen increased its quarterly dividend 4.5% to \$0.46, marking its 18th consecutive annual dividend increase.

On August 3rd, 2022, AmerisourceBergen announced Q3 fiscal year 2022 results for the period ending June 30th, 2022. (AmerisourceBergen's fiscal year ends September 30th.) For the quarter, revenue came in at \$60.1 billion, a 12.5% increase compared to Q3 2021. Adjusted diluted earnings per share equaled \$2.62 per share compared to \$2.16 per share in Q3 2021, a 21.3% year-over-year increase.

AmerisourceBergen, and the two other national pharmaceutical distributors, reached an agreement with the State of Oklahoma to resolve opioid-related claims. This brings the number of States that the company has settled opioid-related claims with to 48 of 49 eligible states.

AmerisourceBergen also updated its 2022 guidance. The company now anticipates adjusted earnings-per-share of \$10.90 to \$11.10, up from \$10.80 to \$11.05 previously. We have updated our forecast accordingly.

Growth on a Per-Share Basis

The pharmaceutical distribution industry has been pressured, with increasing demand for generics fueling drug price deflation in the U.S., along with opioid litigation. In addition, there are fears of heightened competition from e-commerce giant Amazon, along with mounting political pressure on the industry. Despite these headwinds, AmerisourceBergen continues to grow, partially thanks to the company's recent acquisitions, which continues to strengthen the company's position in the U.S. pharmaceutical distribution market.

In the 2011 through 2021 stretch, AmerisourceBergen grew its earnings-per-share by 13.8% per annum. However, this was coming off the last recession and does not capture the more difficult environment distributors are dealing with. Still, the company expects solid bottom line growth this year – between 17% and 20%. We are forecasting 4% annual growth off a much higher base over the intermediate term, reflecting some confidence in the company's ability to take on the poor operating environment, management's guidance and a share repurchase program. This is balanced against the idea

that it becomes more and more difficult to grow as the company gets larger and 2022 could prove to be a high starting base.

Valuation Analysis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Now	2027
Avg. P/E	14.0	16.0	17.6	20.4	15.7	14.4	13.6	11.7	11.6	11.6	12.9	13.0
Avg. Yld.	1.6%	1.7%	1.3%	1.1%	1.5%	1.7%	1.7%	1.9%	1.8%	1.8%	1.3%	1.5%

Over the past decade shares of AmerisourceBergen have traded hands with an average P/E ratio of about 15 times earnings. However, this was during a time when growth was much more robust. We are using 13 times earnings as a starting fair value baseline to account for some of the growing uncertainty in the industry. With shares trading just below 13 times expected earnings, this implies a small valuation tailwind.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
Payout	22%	26%	24%	23%	23%	25%	23%	23%	21%	19%	17%	19%

AmerisourceBergen's main competitive advantage is its industry position. As one of the 'Big 3,' AmerisourceBergen has a sizable economic moat that protects its market share. It is very difficult for a new competitor to enter the market. AmerisourceBergen sources over 1.5 million products delivered from over 30 distribution centers, which is a major competitive advantage over smaller companies.

In terms of income safety, AmerisourceBergen continues to operate with a dividend payout ratio below 25%, allowing for ample dividend increases along the way. As of the most recent report the company held \$3.0 billion in cash, \$39.7 billion in current assets and \$57.2 billion in total assets against \$43.2 billion in current liabilities and \$56.7 billion in total liabilities. Long-term debt stood at \$4.6 billion.

Final Thoughts & Recommendation

Shares are up 5% year-to-date, which compares favorably to the overall broader market. AmerisourceBergen's valuation has declined in recent years, as the market has turned negative toward the major pharmaceutical distributors. Our view has become more cautious as well; however, the fundamentals remain strong. We forecast 5.5% total return potential, comprising of a 4% growth rate, a 1.3% starting yield, and a small valuation tailwind. Shares earn a hold rating.
