Overview & Current Events

Citizens Financial Group is a bank holding company for Citizens Bank, a regional bank that is based in Providence, Rhode Island. Citizens operates two segments: Consumer Banking and Commercial Banking. The consumer segment offers traditional banking products and services, such as deposit accounts, home and education loans, credit cards, business loans, mortgage and home equity loans, personal loans, auto finance loans, and wealth management. The commercial segment offers a full suite of financial products and services to businesses, including treasury management, cash management, forex and interest rate risk solutions, M&A advisory services, and more. Citizens traces its roots back to 1828 and operates about 1,000 branches in 11 states in the U.S. The stock trades with a market capitalization of \$19 billion, and Citizens should generate about \$8 billion in revenue this year.

Citizens reported third quarter earnings on October 19th, 2022, and results were better than expected on both the top and bottom lines. Adjusted earnings-per-share came to three cents better than expected at \$1.30. Revenue was up nearly 32% year-over-year at \$2.17 billion, and \$40 million better than expected.

Net interest income was \$1.67 billion, up from \$1.51 billion in the prior quarter, and up from \$1.15 billion in the year-ago period. Net interest margin was 3.25%, up from 3.04% in Q2, and up from 2.72% in the comparable period a year ago. The company said it expects 3.30% to 3.35% in Q4.

Noninterest expense was \$1.24 billion, down from \$1.31 billion in Q2 but up from \$1.01 billion a year ago.

Provisions for credit losses were \$123 million, down from \$216 million in Q2, but up sharply from a benefit of \$33 million in the year-ago period.

We see \$4.80 in earnings-per-share for the year with one quarter remaining.

Growth on a Per-Share Basis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
EPS	---	---	\$1.55	\$1.55	\$1.97	\$3.25	\$3.52	\$3.81	\$2.22	\$5.34	\$4.80	\$5.84
DPS	---	---	\$0.10	\$0.40	\$0.46	\$0.64	\$0.98	\$1.36	\$1.56	\$1.56	\$1.68	\$2.04

Citizens has posted strong earnings growth in most years, with 2020 being the obvious exception. Citizens has been seeing strong credit metrics based on prudent underwriting strategies, resulting in lower net charge-offs and allowances for credit losses. Citizens, like just about every other bank of reasonable size, took huge credit loss provisions in 2020, but those were largely unwound in 2021 as actual results were much better than originally feared during the worst of the pandemic. We note that Citizens is seeing lower lending margins and rising expenses, given the volatile moves in interest rates that continue to take place. Given this, as well as the unsustainable nature of credit loss provision unwinding from elevated 2020 levels, we think Citizens will struggle to replicate 2021 earnings levels. However, based upon this year's lower base, we estimate 4% growth in earnings-per-share for the next few years, some of which will be driven by the bank's steady share repurchases.

We see the dividend rising in the years to come as Citizens' payout ratio is low compared to many regional banks. The dividend has proven to be a priority to management, and we believe it has the potential to hit \$2.04 per share by 2027. We note that Citizens raised its payout for the first time in 2.5 years in mid-2022.

Valuation Analysis

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Now	2027
Avg. P/E	---	---	15.4	16.4	12.3	11.2	11.5	9.3	12.6	10.8	7.9	9.5
Avg. Yld.	---	---	0.4%	1.6%	1.9%	1.8%	2.4%	3.8%	5.6%	3.4%	4.4%	3.7%

Citizens has been valued in the low-double-digits for the past handful of years, but we peg fair value at 9.5 times earnings. Shares trade at just 7.9 times this year's earnings, implying a sizable valuation tailwind. The yield is also very strong at 4.4%, and we see it remaining above 3% for the foreseeable future.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2027
Payout	---	---	6%	26%	23%	20%	28%	36%	70%	29%	35%	35%

We see the payout ratio remaining where it is today for the years to come, as earnings growth and dividend growth should be roughly congruent. We have no dividend safety concerns at this point.

Citizens, like any other bank, is beholden to economic conditions. Citizens didn't exist in its current form during the Great Recession, but regional banks in general are quite susceptible to recessions, and indeed 2020 showed what kind of impact a recession can have on earnings. Citizens, also like other regional banks, doesn't really enjoy any competitive advantages, as services are commoditized in banking to a large extent.

Final Thoughts & Recommendation

Citizens looks undervalued today. Given this, and 11.3% expected total returns, we are reiterating the stock at a buy rating. Dividend safety is strong, and the current yield is nearly triple that of the S&P 500, so we see Citizens as a strong income stock, and the valuation is remains attractive. Total returns could accrue from 4% growth, a 3.7% valuation tailwind, and the strong 4.4% yield.
