Physicians Realty Trust was organized in April of 2013. The real estate investment trust, based in Milwaukee, Wisconsin, acquires, develops, owns and manage healthcare properties. These properties are leased to physicians, hospital and healthcare delivery systems. The trust's portfolio of 269 properties also includes diagnostic and outpatient treatment facilities, surgery centers and medical office buildings. Physicians Realty Trust generates annual revenues of nearly \$530 million.

On November 3<sup>rd</sup>, 2022, Physicians Realty Trust released third quarter results for the period ending June 30<sup>th</sup>, 2022. Revenue grew 14.1% to \$131.5 million and was \$0.3 million above expectations. Funds-from-operation, or FFO, of \$0.28 compared to \$0.26 in the prior year, but was \$0.01 below estimates.

Medical Office Buildings, which comprise 85% of net leasable square footage, had same-store cash NOI growth of 1.1%. The portfolio was 95% leased at the end of the third quarter, once again matching the prior quarter's figure. The trust executed 251,000 square feet of leasing activity during the quarter, with a weighted average lease of 6 years and had a weighted average leasing spread of 6.2% on 204,000 renewed square feet.

We continue to expect that Physicians Realty Trust is expected to generate funds-from-operation of \$1.06 in 2022. We have updated our forecast accordingly.

## Growth on a Per-Share Basis

| Year                      | 2012 | 2013   | 2014   | 2015   | 2016   | 2017   | 2018   | 2019   | 2020   | 2021   | 2022          | 2027          |

| <b>Shares<sup>2</sup></b> | ---  | 12     | 37     | 77     | 130    | 168    | 188    | 194    | 216    | 228    | <b>240</b>    | <b>240</b>    |

FFO for Physicians Realty Trust has nearly quadrupled since becoming a publicly-traded trust. The trust has compounded FFO by a rate of 21% since forming, but much of this growth occurred in the early years of this time frame. Over the last five years, FFO has grown by a rate of 1.1%. It should be noted that growth has slowed recently, but Physicians Realty Trust has drastically increased its share count in order to fund acquisitions. FFO continued to grow even as the share count increased. Erring on the side of caution, we reaffirm adjusted our expected FFO growth rate to 1.7%. Applying this growth rate by our expected FFO per share could lead to FFO of \$1.15 by 2027.

Physicians Realty Trust's dividend remained unchanged in 2015 and 2016, but was raised a \$0.01 in each of the next two years. Given the lack of dividend growth since its IPO, and the already-high payout ratio, we are not projecting dividend growth for the trust over the next five years.

Updated November 5<sup>th</sup>, 2022 by Nathan Parsh

Shares of Physicians Realty Trust have decreased by \$2.86, or 16.6%, since our August 5<sup>th</sup>, 2022 report. Physicians Realty Trust has traded with an average price-to-funds-from-operation ratio of 21.6 since becoming public. Removing the trust's first year valuation, the average P/FFO ratio drops to 18.4. We have a 2027 target P/FFO ratio of 15 due to low expected FFO growth over the next five years. Based off of the current share price and expected FFO for 2022, the stock has a P/FFO ratio of 13.6. If shares were to trade at our target multiple, then valuation would add 2% to annual returns through 2027.

Physicians Realty Trust's current yield is more than 100 basis points above the stock's five-year average yield of 5.3%.

## Safety, Quality, Competitive Advantage, & Recession Resiliency

| Year   | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2027 |
|--------|------|------|------|------|------|------|------|------|------|------|------|------|
| Payout | ---  | 85%  | 129% | 98%  | 92%  | 88%  | 85%  | 92%  | 88%  | 88%  | 87%  | 80%  |

Real Estate Investment Trusts are required to distribute at least 90% of taxable income in the form of dividends, so Physicians Realty Trust's elevated payout ratios over the years shouldn't be a major concern to investors. Those looking for dividend growth, however, will likely be disappointed with the trust.

Physicians Realty Trust key competitive advantage is that its properties are likely to be in demand regardless of economic conditions; consumers will seek out medical care during all parts of the economic cycle. The trust has also shown the ability increase FFO while simultaneously issuing stock to help finance transactions.

## Final Thoughts & Recommendation

After third quarter results, Physicians Realty Trust is now expected to return 8.8% annually through 2027, up from our previous estimate of 4.9%. This projection stems from a 1.7% FFO growth rate, a 6.4% starting dividend yield, and a small tailwind from multiple expansion. Physicians Realty Trust continues to enjoy a strong occupancy rate and low, but steady growth for its Medical Office Buildings portfolio. We maintain our five-year price target of \$17.30. Income investors will likely find the yield attractive due to the high yield, if not the trust's dividend growth. That said, we continue to rate shares of Physicians Realty Trust as a hold due to projected returns.
