Overview & Current Events

UGI Corporation is a gas and electric utility that operates in Pennsylvania, in addition to a large energy distribution business that serves the entire US and other parts of the world. It was founded in 1882 and has paid consecutive dividends since 1885. Its market capitalization is \$8.1 billion. The company operates in four reporting segments: AmeriGas, UGI International, Midstream & Marketing, and UGI Utilities.

On November 17th, 2022 UGI reported fourth quarter and Fiscal 2022 Results. GAAP net income was \$1,073 million and adjusted net income was \$626 million compared to GAAP net income of \$1,467 million and adjusted net income of \$629 million in the prior year. GAAP diluted earnings per share was \$4.97 and adjusted diluted EPS was \$2.90 compared to GAAP diluted EPS of \$6.92 and adjusted diluted EPS of \$2.96 in the prior year.

The balance sheet remained strong with available liquidity of approximately \$1.7 billion, inclusive of \$398 million in cash collateral received from derivative counterparties. UGI divested of the UK energy marketing business effective October 21, 2022 and announced the intent to sell the French energy marketing business, with a targeted closing in the first quarter of fiscal 2023, and to wind down energy marketing operations in Belgium and the Netherlands. Management issued a fiscal 2023 adjusted diluted EPS guidance range of \$2.85 - \$3.15 while reiterating its long-term 6% - 10% EPS growth rate target.

We see 6.5% annualized growth over the next half decade. UGI completes acquisitions periodically, further bolstering future growth. It does not buy back stock, but these initiatives should be enough to drive earnings-per-share growth over the long-term. Keep in mind that results are non-linear thanks to the weather, so UGI will almost certainly not achieve steady growth, but will go through stops and starts. Long-term, however, the growth story remains intact.

Management is dedicated to continuing the long streak of paying dividends and the 35 years of consecutive increases.

Valuation Analysis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	Now	2028
Avg. P/E	15	16.4	15.4	15.8	17.7	19.3	20.8	20.2	12.9	13.2	12.8	15.5

Today's price-to-earnings multiple stands at 12.8 times our expected 2023 earnings-per-share. However, we are forecasting a reversion to the mean at 15.5 as the stock remains undervalued. Dividend stocks, and utilities in particular, have been assigned rising valuations in recent years due to persistently low interest rates, but UGI is currently trading

below its historical price-to-earnings levels, giving it additional upside potential from valuation multiple expansion. We note the current valuation is near the lowest point of the past decade.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Payout	46.5%	41.1%	44.3%	45.4%	41.9%	37.6%	53.1%	49.1%	46.3%	49.3%	48.3%	41.7%

UGI's main competitive advantage is in its highly diversified business model. It has electric and gas utilities, propane distribution that covers a wide geographic area and diverse customer base, as well as a variety of other energy generation and distribution activities. This allows it to not only weather downturns in any particular business, but provides several avenues for growth as well. UGI's strong performance during the Great Recession illustrates this.

The payout ratio is quite reasonable today given the company weathered the COVID-19 recession well. We expect a sub-50% payout ratio for the foreseeable future, indicating excellent dividend safety.

Final Thoughts & Recommendation

UGI is a Dividend Aristocrat that offers strong future annualized total return potential of 13.4% due to the combination of strong growth, an attractive dividend yield, and some multiple expansion. As a utility, it should be well-positioned to weather a recession and its well-covered and growing dividend yield is attractive for dividend growth investors. As a result, we rate it a Buy.
