Overview & Current Events

Artesian Resources Corp. was founded in 1905 in New Castle County, Delaware. Through its subsidiaries, the company provides water, wastewater and other services, primarily in the Delaware region. Artesian Resources sells and distributes water to residential, commercial, industrial, governmental, and utility customers throughout the state. In addition, Artesian Resources provides water for public and private fire protection in Delaware, Maryland, and Pennsylvania. The company produces 7.9 billion gallons of water annually through 1,311 miles of water main with a population of approximately 301,000 served.

On March 9th, 2023, Artesian Resources reported Q4 and FY 2022 results. In 2022, the company experienced an 8.8% increase in revenues and a 7.0% increase in net income. The annualized shareholder dividends also increased by 4.0% in the same year. The company has paid dividends to shareholders for 121 consecutive quarters and has increased dividends for 26 years in a row. The company invested \$48.5 million in water and wastewater infrastructure, acquired Tidewater Environmental Services, Inc. (TESI), which doubled the number of wastewater customers served, and acquired the Town of Clayton's water system in Kent County, Delaware. Additionally, the company completed the Dagsboro Armory Road Tank in Sussex County, which added one million gallons of additional elevated water storage and finished the rehabilitation of the booster station and installation of water mains to serve Phase 1 of the Bainbridge Development in Cecil County, Maryland.

For the year ended December 31, 2022, the company reported a net income of \$18.0 million, which was a 7.0% increase compared to the same period in 2021. Revenues totaled \$98.9 million, representing an 8.8% increase compared to the same period in 2021.

Growth on a Per-Share Basis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
EPS	\$0.94	\$1.07	\$1.26	\$1.41	\$1.51	\$1.54	\$1.60	\$1.79	\$1.79	\$1.79	\$1.90	\$2.55
DPS	\$0.82	\$0.85	\$0.87	\$0.90	\$0.93	\$0.96	\$0.98	\$1.03	\$1.07	\$1.09	\$1.11	\$1.25
Shares³	8.8	8.9	9.1	9.1	9.2	9.3	9.3	9.4	9.4	9.5	9.5	9.8

Artesian Resources has enjoyed strong growth for a utility. EPS growth over the past decade has averaged just under 8% per year. That being said, we expect growth to slow somewhat moving forward to a 6.1% annualized growth rate over the next five years. Delaware's population growth averages approximately 1% per year, which along with 1%-2% annual price increases, provides a baseline growth rate for the company of approximately 2%-3%. The company can potentially increase this further by offering new services, improving economies of scale, and expanding its area, but growth beyond 6-7% per year may be difficult going forward and for now, we choose to remain conservative with our estimate.

Valuation Analysis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	Now	2028
Avg. P/E	23.9	20.5	18	20.9	24.2	23.9	23.3	21.8	25.9	29.7	27.4	24.5
Avg. Yld.	3.6%	3.9%	3.8%	3.1%	2.5%	2.6%	2.6%	2.6%	2.3%	2.1%	2.1%	2.0%

Due to its stability, Artesian Resources has historically commanded a rather high valuation. Its P/E ratio dropped to under 17 during the previous recession but has often floated over 20 during normal economic times. Currently the P/E ratio is 27.4 and its dividend yield is 2.1%.

Low government bond yields across the developed world have resulted in substantial equity premiums for recession-resistant stocks, meaning that even at rich valuations they potentially offer a sizable return premium over safe government bonds. Still, with interest rates rising, we believe that paying over 24.5x annual earnings is too rich given the lack of growth potential, and that a P/E of 24.5 or less for a company with this level of growth and high earnings resiliency is warranted.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Payout	87%	79%	69%	64%	62%	62%	61%	58%	60%	61%	58%	49%

Artesian Resources has a solid balance sheet as annual interest expense is well-covered by operating income. The company uses a substantial amount of leverage but is in line with other utilities on this metric due to their stable, recession-resistant cash flows and large base of assets.

Like most utilities, the company's earnings have historically been very recession resistant. During the previous recession, the company's earnings-per-share declined by 5% in 2007 and declined by a further 7% in 2008. By 2009, the company had recovered to match its 2006 peak earnings and surpassed that peak in 2010. The company operates in a regulated environment with long-term contracts, and its cash flows should be very safe going forward. The company has increased its dividend for 27 consecutive years, although at times the payout ratio was high.

Final Thoughts & Recommendation

Artesian Resources has been a very successful utility company with a long stretch of consecutive annual dividend increases and a solid growth rate in an otherwise slow-growing industry.

However, Artesian Resources' forward returns are likely to be lower than past returns, as the company's growth rate is likely to slow moving forward. We expect total returns over the next five years to average approximately 5.6% per year, and therefore consider Artesian Resources to be a Hold at the current time.
