## Overview & Current Events

Innovative Industrial Properties, Inc. is a single-use “specialty REIT” that exclusively focuses on owning properties used for the cultivation and production of marijuana. Because the industry is in the midst of a legal transition, there are constraints on capital available to businesses engaged in the marijuana business. IIPR went public in a “loophole” time period. No other cannabis-related REITs have been approved for listing on the NYSE or the NASDAQ. Having the fortunate status as the only publicly traded marijuana REIT in the US has led to stunning returns and portfolio growth. The \$2.4 billion REIT owns 110 properties in 19 states. Amid the cannabis boom over the past few years, as well as its exclusivity in terms of the listing giving the trust access to public markets, Innovate Industrial Properties remains one of the fastest-growing REITs in the world.

On February 27<sup>th</sup>, 2023, Innovative Industrial announced its Q4-2022 and full-year earnings for the period ending December 31<sup>st</sup>, 2022. For the quarter, revenues and normalized AFFO/share were \$70.5 million and \$2.12, an increase of 19.5% and 14.6%, respectively. The company's growth was primarily driven by the nine properties that were acquired throughout the year. Contractual rental escalations at certain properties also boosted results.

As of December 31<sup>st</sup>, 2022, 100% of IIPR's properties were leased with a weighted average remaining lease term of approximately 15.3 years. That's two months less than the previous quarter's WALE, but it is still a very impressive total. Unfortunately, the company collected 94% during the quarter due to a few of its tenants going out of business.

Based on Innovative Industrial's lease profile, we forecast AFFO/share of \$8.50 for fiscal 2023. This figure could end up being larger, as was the case with our fiscal 2022 estimate (\$8.00), though we remain prudent.

## Growth on a Per-Share Basis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
<b>AFFO</b>	---	---	---	-\$0.62	\$0.67	\$1.34	\$3.27	\$5.01	\$6.66	\$8.45	<b>\$8.50</b>	<b>\$10.85</b>
<b>DPS</b>	---	---	---	---	\$0.55	\$1.20	\$2.83	\$4.47	\$5.72	\$7.10	<b>\$7.20</b>	<b>\$9.19</b>
<b>Shares<sup>2</sup></b>	---	---	---	1	3.4	7.3	10.7	19.4	23.9	27.3	<b>27.9</b>	<b>60.0</b>

Industrial Innovating Properties has seen AFFO/share grow dramatically since the trust's IPO. To capitalize on the growth of the cannabis sector, IIPR acquired 37 and nine properties in 2021 and 2022, respectively. With the schedule-1 drug being decriminalized in one state after the other, we expect to see the current growth rates sustained in the medium term. In line with its AFFO growth, management has consistently raised the dividend, often on a sequential basis. Payouts grew by 24% in FY2022. We have now lowered our AFFO/share growth estimate to 5%. This is largely to be prudent against rising interest rates and the possibility of some of the company's tenants being unable to pay rent. We have also set our dividend per share growth estimate at 5%, which implies a deceleration relative to the company's most recent dividend hikes. As we mentioned in previous reports, and it was once again proven in FY2022 results, these estimates will likely turn out to be conservative. Still, IIPR has short trading history, and its acquisition-driven strategy may see availability headwinds in the future, which also supports the case for our more reserved estimates.

<sup>1</sup> Estimated dates based on past dividend dates.

<sup>2</sup> Share count is in millions.

## Valuation Analysis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	Now	2028
Avg. P/FFO	---	---	---	---	47.8	12.2	16.6	30.2	33.0	18.9	<b>10.1</b>	<b>14.0</b>
Avg. Yld.	---	---	---	---	3.4%	3.3%	2.8%	2.8%	2.6%	4.4%	<b>8.4%</b>	<b>6.1%</b>

IIPR's shares have plunged since our last report, undergoing a violent valuation multiple compression. The stock's valuation has shifted to 10.1 times our FY2023 expected AFFOs. With its results remaining robust, we continue to believe that the stock is steeply undervalued at its current levels. We have set our fair valuation multiple at 14X through 2028, implying an annualized valuation tailwind of 6.8%. Shares are now yielding 8.4%, which is tremendous considering the company's sustained growth.

## Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Payout	---	---	---	---	82%	90%	87%	89%	86%	84%	<b>85%</b>	<b>85%</b>

Despite the company's high payout ratio, we believe the dividend should remain well-covered. Last year's bold dividend increases reassure us of that. Regarding its qualities, being the only listed pure-cannabis REIT, the company has a massive moat. With access to public markets, management can issue debt and equity much cheaper than its few private competitors. IIPR can build more durable and sustainable relationships with tenants as it possesses higher credibility and transparency. With more states legalizing weed over time, the company is subject to a fantastic medium/long-term expansion trend. Despite the headwinds COVID-19 caused in many industries, IIPR was barely affected, continuing its proven acquisition-based growth model. That said, because of how new the cannabis sector is, its recession resiliency is untested to the passage of time and remains to be seen. And, despite its average lease duration standing at a fantastic 15.2 years, we are wary of the tenants' ability to commit to their leasing obligations. This is due to many of them facing financial hurdles as a result of the steep competition in the cannabis space, as well as the industry's razor-thin margins.

## Final Thoughts & Recommendation

Innovative Industrial Properties is a genuinely unique investment case. Instead of guessing which cannabis-producing stock will be a long-term winner, investors can profit off of what every producer needs, which is specialized property. This way, the sector's growth can be taken advantage of while benefiting from the consistent rental cash flows from IIPR's facilities. Although we have made conservative predictions about the growth of the company, the stock seems to be undervalued relative to our growth estimates. This has led us to project a high annualized return of 17.7% until 2028. Shares earn a buy rating, but for investors who are prepared to deal with significant fluctuations in the stock price.
