Overview & Current Events

Corporate Office Properties Trust is a Real Estate Investment Trust (REIT) that invests in office and data center buildings, mainly in the suburbs of the Washington, D.C. metropolitan area. It primarily leases to the U.S. government and its contractors. As of December 31, 2022, the company derived 91% of its core portfolio annualized rental revenue from Defense/IT Locations and 9% from its Regional Office Properties. OFC's core portfolio of 192 properties encompassed 22.8 million square feet and was 95.3% leased. The company was founded in 1988 by Clay W. Hamlin III as Royale Investments, Inc. However, the company now trades under the ticker symbol "OFC" and has a current market capitalization of \$2.90 billion.

On February 9th, 2023, OFC reported fourth quarter and full year results for Fiscal Year (FY)2022. The company's total revenue was \$175 million for the quarter versus \$185.9 million for the fourth quarter of 2022, decrease (5.7)% year-over-year. However, operating income was up for the quarter by 284%. This was due to lower operating expenses and a lot less loss on early extinguishment of debt. Thus, net income for the quarter was \$52.1 million compared to \$14.9 million in 4Q2021, which is an increase of 248.1%. Earnings per share was \$0.45 for the quarter compared to \$0.12 for the quarter ended in 2021. This represents an increase of 275%. For the full year, total revenue was up 11.2% compared to 2021. Also, bottom line saw a significant increase as well. Net income increased 119% year over year from \$81 million to \$179 million in 2022. Total Square Feet Leased, for the quarter, the company leased 692,000 square feet, including 519,000 square feet of renewals and 173,000 square feet of vacancy leasing. For the year, the company executed 3.0 million square feet of total leasing, including 1.7 million square feet of renewals, 801,000 square feet of vacancy leasing, and 476,000 square feet in development projects. The company's development pipeline consists of 10 properties totaling 1.5 million square feet and 89% leased. These projects have a total estimated investment cost of \$487.5 million. The company also announced its first dividend increase since 2011 of 3%.

OFC management team provided the full year 2023 guidance in the quarterly report. Management expects its full-year guidance FFO to be between \$2.34 and \$2.42 per share. We will use \$2.40 as our fair value and total return calculations.

Growth on a Per-Share Basis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
EPS	\$1.97	\$1.88	\$2.01	\$2.01	\$2.03	\$2.01	\$2.03	\$2.12	\$2.29	\$2.36	\$2.40	\$2.85
DPS	\$1.10	\$1.10	\$1.10	\$1.10	\$1.10	\$1.10	\$1.10	\$1.10	\$1.10	\$1.38	\$1.12	\$1.24
Shares¹	85.0	88.2	97.7	94.5	99.2	104.1	111.6	112.1	112.4	112.6	112.6	112.5

The most significant growth prospects from OFC will be the continuation of profitable acquisitions in the future and increasing rents at a modest rate. OFC had grown FFO at a Compound Annual Growth Rate (CAGR) of 2.0% over the past ten years. Over the past five years, FFO growth has improved with a CAGR of 3.6%. During the COVID-19 pandemic, most REITs had to cut their dividend, or FFO decreased for the year. However, FFO increased by 4% from 2019 to 2020. We expect OFC to continue to grow FFO at a 3.5% CAGR for the next five years. We expect the Trust to make \$2.85 in FFO per share in 2028.

¹ Share count is in millions.

Corporate Office Properties Trust (OFC)

Updated March 5th, 2023 by Felix Martinez

The dividend has not been increasing throughout the years. The company has been paying the same dividend rate of \$1.10 per share for the past ten years. However, with the most recent increase of 3%, we think that the company will continue modest increases of 2% a year for the next five year.

Valuation Analysis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	Now	2028
Avg. P/E	12	15.1	10.9	15.5	14.4	10.5	14.5	12.3	12.2	11	10.6	12.7
Avg. Yld.	4.6%	3.9%	5.0%	3.5%	3.8%	5.2%	3.7%	4.2%	3.9%	4.2%	4.5%	3.4%

OFC currently trades hands with a 10.6x FFO, which is lower than its peers. Over the ten years history of OFC, the Trust has ten-year multiple averages of 12.8x FFO. Thus, we think a multiple of 12.7x FFO is fair for OFC. This will provide a 3.6% tailwind expansion over the next five years. The current dividend yield of 4.5% is slightly higher than its five-year average. Thus, the company looks to be undervalued.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Payout	55.8%	58.5%	54.7%	54.7%	54.2%	54.7%	54.2%	51.9%	48.0%	58.5%	47%	43%

OFC's competitive advantage is that it has a strong management team. The company was very resilient during The Great Recession in 2008-2009 and during the COVID-19 pandemic. During 2008, FFO increased by 9% to \$2.44 per share. Also, in 2019, FFO increased by 2% to \$2.49 per share. As mentioned above, OFC was one of the fortunate REITs that increased FFO in FY2020. This speaks volumes as most REITs struggle mightily during the pandemic. Also, OFC did not have to cut its dividend.

OFC has a good balance sheet. The Trust has an interest coverage ratio of 3.5 and a debt-to-equity ratio of 1.3. The dividend payment is meager compared to other REITs paying out 47% of its FFO. The low dividend payout ratio should help the company start a dividend growth policy in the future.

Final Thoughts & Recommendation

OFC is a well-run office REIT with a good balance sheet. The Trust went through the COVID-19 pandemic like it was not even there. The Trust offers an expected total return for the next five years to be 10.6%. Thus, at the current price, the stock earns a buy rating.
