Overview & Current Events

Charles Henry Robinson founded C.H. Robinson Worldwide (CHRW) in the early 1900s. The company is now an American Fortune 500 provider of multimodal transportation services and third-party logistics. The company's services are freight transportation, transportation management, brokerage, and warehousing. CHRW also offers truckload, air freight, intermodal, and ocean transportation. The company headquarters is in Eden Prairie, MN. CHRW has a market capitalization of approximately \$11.8 billion, over 14,800 employees, and produced roughly \$23.5 billion in revenue in 2022.

On April 26th, 2023, C.H. Robinson Worldwide reported results for the first quarter for Fiscal Year (FY)2023. For the quarter, revenue decreased (19.7)% to \$3.3 billion from \$4.1 billion in 1Q22. Revenue decrease was driven by lower pricing in our ocean and truckload services. Gross profits decreased (24.7)% year-over-year, while also, operating expenses decreased (6.4)% to \$524.6 million. The decreased in operating expenses was primarily due to cost optimization efforts, including reduced headcount, and lower variable compensation. For the quarter, the Truckload segment saw an decrease of (19.8%). Ocean transportation saw a significant decrease of (50.3)% year over year, Air also saw a decrease of (49.0)% year over year, and LTL saw a decrease of (9.0)% year over year. Thus, adjusted EPS of \$.96 for the quarter is has decreased (53.2)% compared to the \$2.05 per share the company earned in 1Q2022.

We expect that CHRW will make \$4.12 per share for the entire year of 2023. This will represent an decrease of (45.9)% compared to what the company achieved in FY2022. The expected EPS will be used for our total return and fair price calculations. This decrease is due to the lower pricing and volume across most of the company services.

Growth on a Per-Share Basis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
EPS	\$2.65	\$3.05	\$3.51	\$3.59	\$3.34	\$4.73	\$4.19	\$3.72	\$6.31	\$7.62	\$4.12	\$5.01
DPS	\$1.40	\$1.43	\$1.57	\$1.74	\$1.81	\$1.88	\$2.01	\$2.04	\$2.08	\$2.26	\$2.44	\$2.97
Shares²	157.0	148.0	145.0	143.0	141.0	140.0	138.0	136.0	133.0	127.0	126.0	123.0

C.H. Robinson has grown revenue by 5.1% annually over the past ten years and has grown it by 4.9% over the past five years. However, revenue grew by a significant amount last year. Earnings per share have increased by 10.0% over the past five years. We expect annual earnings growth to be 4% for the next five years with the newly purchased Prime Distribution Services' help. However, 2023 EPS will see a significant decrease in earnings. The company has been increasing dividends for 25 consecutive years, with a five-year dividend growth rate of 3.8%. However, the most recent increase was only 2%. Thus, we expect CHRW to raise the dividend by 4% for the foreseeable future as there is enough profit for an increase.

¹ Ex-Dividend and Dividend Payment dates are estimates.

² Share count is in millions.

Valuation Analysis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	Now	2028
Avg. P/E	22.3	20.6	19.5	19.8	21.5	19.2	18.7	25.2	17.1	12.0	24.5	15.0
Avg. Yld.	2.3%	2.8%	2.1%	2.4%	3.0%	3.0%	2.9%	2.2%	1.9%	2.5%	2.4%	3.9%

CHRW has always had a relatively high P/E over the past decade. The company has a ten-year P/E average of 19.6. However, we will use a 15 P/E for our forward fair value estimate as a lower P/E ratio is warranted because of slower growth. Currently, the company is overvalued based on our PE estimates. The current dividend yield of 2.4% is lower than its 5-year dividend yield average of 2.7%.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Payout	52.8%	46.9%	44.7%	48.5%	54.2%	39.7%	48.0%	54.8%	33.0%	29.7%	59%	59%

The company went through the Great Recession in 2008-2009 very well. Earnings grew from \$1.86 in 2007 to \$2.13 in 2009. However, it did have an earnings growth of 26.6% CAGR from 2004 to 2007, and it slowed to just 2% in 2009. Nevertheless, it shows how resilient this company is. The dividend also grew from \$0.76 in 2007 to \$0.97 in 2009. CHRW has not had its dividend payout reach above 60% for the past 25 years. C. H. Robinson has a wide economic moat because it would be very capital intensive to have new or small competitors to grow a network as effective and efficient as CHRW. CHRW sports a BBB+ credit rating from S&P, which is investment-grade quality. The company has a strong balance sheet with more assets than debt, a total debt/equity ratio of 1.7, and an interest coverage ratio of 9.5.

Final Thoughts & Recommendation

Throughout the last ten years, C.H. Robinson Worldwide has been a high-quality company with a relatively high P/E ratio. Even though earnings are expected to be lower for FY2023, we believe they will continue and grow at a 4% rate over the next five years. The company is currently overvalued at today's price. We estimate a 5-year annual return of negative (2.5)% going forward. Thus, we have a sell recommendation at the current price because of the expected total return.
