Overview & Current Events

Westlake Corporation is a global manufacturer and supplier of petrochemicals, polymers, and building products. Founded by Ting Tsung Chao in 1986, the company operates through two segments: Performance and Essential Materials; and Housing and Infrastructure Products. The Performance and Essential Materials segment produces a wide range of products, including polyethylene, polypropylene, specialty polymers, and vinyl resins, used in various consumer and industrial markets such as packaging, automotive, and construction. The Housing and Infrastructure Products segment manufactures and sells a range of building products, including roofing materials, siding, and other products used in construction.

On May 4th, 2023, the company announced results for the first quarter of 2023. WLK reported Q1 Non-GAAP EPS of \$3.05, beating market estimates by \$0.99. The company reported revenues of \$3.36 billion for the quarter, down 17.2% year-over-year.

Q1 outperformed the fourth quarter of 2022 due to increased product demand and the advantages of cost reductions and synergies realized because of the cost management activities. Despite results that were lower than in the first quarter of 2022, the company experienced significant sequential improvement in each of its segments from Q4, with rising demand for PVC and epoxy resins as well as for the Housing and Infrastructure Products segment as client destocking slowed.

Lastly, the company benefited from lower transportation, logistics, and other costs due to significant cost synergies from recent acquisitions, as well as lower feedstock and energy costs as electricity and natural gas prices returned to normal after being elevated in 2022, notably in Europe.

Growth on a Per-Share Basis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
EPS	\$4.55	\$5.07	\$4.86	\$3.06	\$5.46	\$7.62	\$3.25	\$2.56	\$15.58	\$17.34	\$11.00	\$14.04
DPS	\$0.41	\$0.58	\$0.69	\$0.74	\$0.80	\$0.92	\$1.03	\$1.07	\$1.14	\$1.31	\$1.43	\$2.30
Shares	133.3	132.9	130.2	128.9	129.4	128.5	128.4	127.8	127.9	127.5	126.9	123.8

Westlake Corporation remains well-positioned throughout its product range to benefit from structural market trends and deliver greater value when economic conditions improve, even though the adverse environment may persist in the near future. While we don't expect a repeat of the unprecedented high EPS in 2022 of \$17.34, driven by the favorable supply-demand dynamics that led to strong demand for the firm.

Considering the cyclical nature of the business, we forest an EPS of \$11.00 in 2023, but the firm can grow annually by at least 5.0% for the next five years, suggesting an EPS of \$14.04 by 2028. In addition, Westlake Corporation has paid an increasing dividend for the past 17 years, and we do expect the company to maintain its dividend growth and have forecasted a dividend CAGR of 10.0%, leading to a dividend of \$2.30 in 2028.

Valuation Analysis

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Avg. P/E	10.9	14.6	13.0	15.8	13.4	12.9	20.9	23.1	5.9	5.2	10.3	12.0
Avg. Yld.	0.8%	0.8%	1.1%	1.5%	1.1%	1.0%	1.5%	1.8%	1.3%	1.2%	1.3%	1.4%

Westlake Corporation trades at a forward P/E of 10.3, considerably lower than its long-term nine-year and 5-year average P/E of 13.6. Following the cyclical downturn of the stock, a P/E multiple of 12.0, slightly below the company's long-term average, is a fair reflection of its value. Accordingly, with an EPS of \$14.04 and P/E of 12.0, our target price for the stock stands at \$168 by 2028, suggesting an upside potential of 47%.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2028
Payout	9%	11%	14%	24%	15%	12%	32%	42%	7%	8%	13%	19%

Westlake Corporation is a leading global manufacturer and supplier of specialty chemicals, polymers, and building products. The company's competitive advantage lies in its vertically integrated business model and diversified product portfolio, which allows it to control the entire supply chain, reduce production costs, maintain high-quality standards, and provide a competitive advantage in the marketplace. In addition, the company has shown resilience during economic downturns due to its strong financial position and ability to adapt to changing market conditions. Finally, Westlake Corporation has managed its debt well and maintained a solid credit rating, allowing it to access capital at competitive rates and finance strategic investments for future growth. Overall, Westlake Corporation's strong competitive position, and recession resilience, will allow the firm to increase its dividend payout in the following years.

Final Thoughts & Recommendation

Despite Westlake Corporation's resiliency amidst the downturn, it remains a cyclical business, but its dividend growth prospects could remain strong throughout the cycle. However, the hold rating is premised upon the 9.4% annualized total returns for the medium-term, derived from the forecasted earnings-per-share growth of 5.0%, 1.3% dividend yield, and a valuation tailwind.
