## Overview & Current Events

Founded in 1993, and headquartered in Houston, Texas, Camden Property Trust is one of the largest publicly traded multifamily real estate companies in the United States. The company is structured as a Real Estate Investment Trust (REIT), owning, managing, and developing multifamily apartment communities. As of June 30<sup>th</sup>, 2023, Camden owned 177 properties containing 60,514 apartments. The \$11.6 billion market cap company has about 1,650 employees, and generates around \$1.40 billion in revenues annually.

On August 3<sup>rd</sup>, 2023, Camden reported Q2 results for the period ending June 30<sup>th</sup>, 2023. For the quarter, the company reported property revenue of \$385.5 million, a 6.6% increase compared to Q2 2022. Higher revenues were primarily driven by same-property revenue growth, which came in at 6.1% as well as a higher number of owned properties. With same-property expenses growing by a lesser 5.8% during the period, same-property NOI (Net Operating Income) rose 6.2%.

Funds from Operations (FFO) totaled \$184.0 million or \$1.67 per share compared to \$179.9 million or \$1.64 per share in Q2 2022. Camden also marginally boosted its fiscal 2023, anticipating core FFO/share to land between \$6.83 and \$6.93 (up from \$6.74 to \$6.98 previously). We have utilized the midpoint of this range in our estimates, which is one cent higher compared to the previous outlook. It implies year-over-year growth of roughly 4%.

## Growth on a Per-Share Basis

| Year                      | 2013   | 2014   | 2015   | 2016   | 2017   | 2018   | 2019   | 2020   | 2021   | 2022   | 2023          | 2028          |
|---------------------------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|---------------|---------------|
| <b>FFO</b>                | \$4.11 | \$4.29 | \$4.54 | \$4.64 | \$4.53 | \$4.77 | \$5.05 | \$4.90 | \$5.39 | \$6.59 | <b>\$6.88</b> | <b>\$8.78</b> |
| <b>DPS</b>                | \$2.52 | \$2.64 | \$2.80 | \$2.95 | \$3.00 | \$3.08 | \$3.20 | \$3.29 | \$3.32 | \$3.76 | <b>\$4.00</b> | <b>\$5.11</b> |
| <b>Shares<sup>2</sup></b> | 85.3   | 88.5   | 97.6   | 89.9   | 91.5   | 103.1  | 97.3   | 99.4   | 102.8  | 108.4  | <b>109.4</b>  | <b>115.0</b>  |

Note that we have presented FFO in the table above, as this better reflects the underlying earnings power of a REIT.

Dating back to 2013, Camden has been able to grow both its dividend and FFO/share by compound annual growth rate of 4.5% and 5.4%, respectively. We are forecasting 5% annual growth over the intermediate-term – in-between these two historical marks – for a variety of reasons.

On the positive growth side, Camden is coming off some strong momentum in 2023. In addition, we are impressed by the resilience that the company demonstrated during the pandemic. Further, general economic growth over the long-term ought to help drive growth. At the same time, the recently acquired properties should lead to economies of scale, as proven by the robust NOI growth in the company's most recent results.

Offsetting these positive points is the idea that growth began to slow even before the pandemic, while rent growth prospects for residential properties have already started to cool off in the face of a tough macro environment. We are also cautious of the rising-rates environment, meaning Camden's financing is likely to become more expensive.

## Valuation Analysis

| Year      | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | Now  | 2028 |
|-----------|------|------|------|------|------|------|------|------|------|------|------|------|
| P/FFO     | 16.3 | 15.7 | 16.8 | 17.6 | 16.6 | 20.2 | 20.7 | 19.4 | 25.0 | 20.5 | 15.8 | 16.0 |
| Avg. Yld. | 3.8% | 3.9% | 3.7% | 3.6% | 3.7% | 3.5% | 3.1% | 3.5% | 2.5% | 2.8% | 3.7% | 3.6% |

Over the past decade, Camden has traded with an average price-to-FFO ratio of just under 19. With residential REITs likely to have a harder time than usual moving forward if the current macro environment persists, we have set our fair multiple at 16. At its current multiple of 15.8, the stock appears relatively fairly valued. Thus, we don't expect any notable valuation tailwinds/headwinds ahead. The dividend was cut during the Great Recession but has since recovered nicely. The company has increased each year since. This component ought to buoy investor returns over time.

## Safety, Quality, Competitive Advantage, & Recession Resiliency

| Year   | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2028 |
|--------|------|------|------|------|------|------|------|------|------|------|------|------|
| Payout | 61%  | 62%  | 62%  | 64%  | 66%  | 65%  | 63%  | 67%  | 62%  | 57%  | 58%  | 58%  |

Camden has a competitive advantage in its position as one of the largest multifamily REITs in the U.S. Its scale and expertise allow it to leverage its experience across a wide portfolio of properties and actively pursue developments.

The company's FFO payout ratio has hovered in the 60% to 70% range for the last decade. We anticipate it will remain at slightly lower levels, with dividend growth tracking FFO growth over time. During the Great Recession, Camden posted FFO of \$2.90, \$1.68, \$2.72, and \$2.73 over the 2008 through 2011 stretch. Meanwhile, the dividend was cut from \$2.80 down to \$1.80 on an annual basis. This gives you some idea of the toll that recessions can take on the business, along with Camden's ability to bounce back. The company is holding up much better this time around, so far.

As of the most recent report, Camden held \$9.0 billion in real estate and \$9.3 billion in total assets against \$4.3 billion in total liabilities. The company's net debt-to-adjusted EBITDA ratio equaled 4.2x, weakening from 4.4x last year.

## Final Thoughts & Recommendation

Camden is a leading multifamily REIT with a solid operating history. The company posted a record FFO/share last year and should set a new one in fiscal 2023. Nevertheless, we remain prudent regarding its medium-term prospects due to a challenging residential market and rising interest rates. We are forecasting an 8.6% annual total return potential, driven by a 4% FFO/share growth, a 3.7% starting yield, and possibly soft valuation tailwinds. Shares earn a hold rating.
