Overview & Current Events

Best Buy Co. Inc. is one the largest consumer electronics retailers in North America with operations in the U.S. and Canada. Best Buy sells consumer electronics, personal computers, software, mobile devices, and appliances and provides services. At end of Q2 FY2024, Best Buy operated 907 Best Buy stores and 20 Best Buy Outlet Centers in the U.S., 20 Pacific Sales Stores, 22 Yardbird Stores, 128 Best Buy stores in Canada, and 32 Best Buy Mobile Stand-Alone Stores in Canada. Best Buy exited its Mexico operations in fiscal 2021. The company continues to lower total store count, continuing a long-term trend. The company's annual sales exceeded \$46.3B in fiscal 2023.

Best Buy reported better than expected Q2 FY2024 on August 29th, 2023. Enterprise revenue decreased to \$9,583M from \$10,329M and non-GAAP diluted EPS decreased to \$1.22 from \$1.54 on a year-over year basis. GAAP diluted EPS decreased to \$1.25 from \$1.35. Comparable enterprise revenue decreased (-6.2%), the seventh straight quarterly decline. Domestic revenue fell (-7.1%) to \$8,890M from \$9,569M, driven by a fall in comparable sales and permanent store closures. Sales were lower for almost 3 out of 5 categories: Computing and Mobile Phones (-6.4%), Consumer Electronics (-5.7%), Appliances (-16.1%), Entertainment (+9.0%), and Services (+7.6%). Comparable domestic online sales decreased (-7.1%) to \$2.76B compared to the prior year due to low demand. Domestic online sales now comprise about 31.0% of total domestic revenue. International segment revenue fell (-8.8%) to \$693M from \$760 year over year due to (-5.4%) comparable sales decline in Canada and negative foreign exchange impact. Sales were lower for 3 out of 5 categories: Computing and Mobile Phones (-2.4%), Consumer Electronics (-10.4%), Appliances (-6.1%), Entertainment (+2.5%) and Services (+4.6%).

Best Buy benefitted from the pandemic. However, a return to the office, expired federal stimulus, inflation, supply chain disruptions, and higher labor and freight costs are now impacting sales and margins.

Best Buy updated FY 2024 guidance at revenue of \$43.8B to \$44.5B and non-GAAP diluted EPS at \$6.00 to \$6.40.

Growth on a Per-Share Basis

Year ¹	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
EPS²	\$2.07	\$2.60	\$2.78	\$3.56	\$4.42	\$5.32	\$6.07	\$7.91	\$10.01	\$7.08	\$6.20	\$7.54
DPS	\$0.68	\$0.72	\$0.92	\$1.12	\$1.36	\$1.80	\$2.00	\$2.20	\$2.80	\$3.52	\$3.68	\$4.48
Shares³	347	352	324	311	283	266	256	257	227	221	214	184

Best Buy's diluted non-GAAP EPS growth is volatile because of the Great Recession and the transition to online shopping. In fact, sales growth was flat-to-negative from fiscal 2012 to 2017. However, the company's efforts to prioritize online sales growth, optimize store count and extract cost efficiencies led to organic sales growth and higher earnings accelerated by the COVID-19 pandemic. But now sales are declining rapidly as consumers return to more normal buying habits and federal stimulus dollars expire. Additionally, inflation and supply chain disruptions are impacting margins. We are forecasting on average 4% EPS and again lowered DPS growth to 4% out to fiscal 2029, but growth will be uneven.

¹ Best Buy's fiscal year ends at the beginning of February and the company reports one year ahead. All tables are in fiscal year.

² Diluted Non-GAAP EPS including restructuring charges, intangible asset amortization, and acquisition-related transaction costs.

³ Share count in millions.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
P/E	15	11.8	12.5	10.1	12.7	13.3	11.9	11.3	8.2	11.6	11.7	11.0
Yld.	2.2%	2.4%	2.7%	3.1%	2.4%	2.6%	2.8%	2.5%	3.4%	4.3%	5.1%	5.4%

Best Buy's stock price is flat since our last report. After COVID-19, sales started declining and costs rose, but that trend seems to be stabilizing. The firm expects growth next year. We set FY 2024 earnings estimate at the mid-point of updated guidance. We previously lowered our fair value estimate to 11X, slightly lower than the trailing 10-year average. Our fair value is now \$68. Our 5-year price target is now \$83.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	33%	28%	33%	31%	31%	34%	33%	28%	28%	50%	59%	59%

Although BestBuy is one of the largest electronics retailers by revenue, it has no significant advantage. Both Walmart and Costco sell electronics and have scale and cost advantages. Best Buy is also not the clear market leader for online electronics retailing. However, Best Buy's Geek Squad and TotalTech services offer advantages relative to traditional retailers providing a level of expertise and service not typically found at other retailers. Also, the firm has nearly six million paid membership customers, providing another advantage for installation and services.

Best Buy makes conservative use of debt with no short-term debt, \$15M in current long-term debt, and \$1,145M in long-term debt that is offset by \$1,093M in cash, equivalents, and short-term investments.

Final Thoughts & Recommendation

At present we are forecasting 7.3% annualized total return over the next five years from a dividend yield of 5.1%, 4% EPS growth, and (-1.3%) P/E multiple contraction. Best Buy was thriving during COVID-19, but sales are now declining, and margins are lower. The dividend yield may interest those seeking income, but we now expect a slower dividend growth rate because of a higher payout ratio. We maintained our rating on this stock as a hold.
