Overview & Current Events

Paychex, Inc, which was incorporated in 1979, provides payroll accounting, benefits and human resource services to businesses that employ between 10 and 200 employees. Paychex provides services to more than 700,000 small and medium-sized businesses, primarily in the U.S. The company operates two segments: Management Solutions, which provides employers with payroll and retirement resources, and PEO & Insurance, which offers outsourced human resource services and insurance.

On April 28th, 2023, Paychex increased its quarterly dividend 12.7% to \$0.89 per share, extending the company's dividend growth streak to 12 years.

On September 27th, 2023, Paychex reported earnings results for the first quarter (the company's fiscal year ends May 31st). For the quarter, revenue grew 7% to \$1.29 billion, beating estimates by \$20 million. Adjusted earnings-per-share of \$1.14 compared to \$1.03 in the prior year and was \$0.02 more than expected.

For the quarter, Management Solutions improved 6% to \$955.5 million due to growth in the number of clients and client employees. Demand remains robust for HR Solutions while revenue per client increased due to better realized prices and product penetration. PEO & Insurance Solutions grew 5% to \$297.8 million due to an increase in the number of average worksite employees and higher unemployment insurance revenue. Interest on funds held for clients improved 83% to \$32.7 million.

Paychex provided revised guidance for fiscal year 2024 as well. Revenue is still projected to grow 6% to 7% for the fiscal year. Adjusted earnings-per-share is now expected to increase 9% to 11%, up from 9% to 10% previously. We have updated our earnings-per-share target for the fiscal year accordingly.

Paychex saw a slight decline in earnings during the last recession. Considering that the company's revenue largely depends on the number of people on payrolls, Paychex did an admirable job suffering just a slight decline in earnings-per-share as unemployment reached high levels. As long as unemployment is low, Paychex should see earnings continue to grow. If unemployment remains elevated, it is possible that the company could experience a slight reduction in earnings based on how well the company navigated the last recession. Paychex grew earnings at a rate of 10.7% per year over the past decade. We reaffirm our expected EPS growth rate of 8% to better reflect the company's historical performance and recent business results.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Avg. P/E	24.1	24.8	24.0	26.2	25.1	29.6	24.1	33.3	32.8	24.6	24.9	25.0

Shares of Paychex have increased \$5, or 4.5%, since our July 2nd, 2023 report. Based off estimates for earnings-per-share for the current fiscal year, the stock has a P/E ratio of 24.9. For context, shares of Paychex have an average P/E of 26.9 over the last ten years. We reaffirm our target P/E of 25 as this is more in-line with the stock's long-term average valuation. If shares were to revert to this target by fiscal 2029, then valuation would add 0.1% to annual returns over this period.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	82%	82%	80%	82%	82%	79%	83%	82%	73%	76%	76%	66%

Shares of Paychex were not immune to lower earnings numbers during the last recession. With that said, the company held up well given the circumstances. Paychex's primary competitive advantage is that it is a leading provider of payroll, account, benefits, and human resource services for small and medium sized companies. Another advantage is that Paychex has very little long-term debt on its balance sheet. This allows the company to access debt markets to fund acquisitions.

Final Thoughts & Recommendation

Following first quarter results, Paychex is now projected to offer a total annual return of 10.6% through fiscal 2029, down from our previous estimate of 11.4%. Our projected return stems from an earnings growth rate of 8%, a starting yield of 3.0%, and a small tailwind from multiple expansion. Paychex continues to produce solid results and the company raised guidance slightly for the fiscal year. We have increased our five-year price target \$1 to \$173 as a result. Shares of Paychex continues to receive a buy rating due to projected returns.
