## Overview & Current Events

C&F Financial Corporation operates as a bank holding company for Citizens and Farmers Bank that provides banking services to individuals and corporates. C&F Bank operates in a decentralized manner in three business segments: community banking and wealth management through C&F Bank, mortgage banking through C&F Mortgage Corporation and consumer finance through C&F Finance Company. C&F Bank operates 31 banking offices and four commercial loan offices located throughout eastern and central Virginia. As of September 30<sup>th</sup>, 2023, C&F Financial Corp. had total assets of \$2.42 billion, total loans of \$1.72 billion, and total deposits of \$2.03 billion. The company was founded in 1927, has 600 employees, and is headquartered in West Point, Virginia.

On October 26<sup>th</sup>, 2023, C&F Financial Corporation released its third quarter fiscal 2023 results for the period ending September 30<sup>th</sup>, 2023. For the quarter, the company reported consolidated net income of \$5.8 million, which represents a decrease of \$768,000, or 11.7%, as compared to the same quarter last year. Net income was \$1.71 per diluted share for the quarter and \$1.85 per diluted share for the same quarter last year. The earnings per share for the first nine months of 2023 were \$5.41, compared to \$5.34 for the same period in 2022.

The mortgage banking segment and consumer finance segment experienced a decrease in earnings due to rising interest rates, which impacted loan originations and borrowing costs. However, the community banking segment continued to grow as a result of higher net interest income, primarily due to higher interest rates and an increase in loans outstanding. Consolidated annualized net interest margin was 4.29% for the reporting quarter, compared to 4.37% and 4.29% for the same year-ago quarter and second quarter of 2023, respectively. The community banking segment's average loans increased \$141.8 million, or 13.7%, primarily from growth in the commercial real estate and residential mortgage segments of the loan portfolio. As of September 30, 2023, the Tier 1 risk-based capital ratio for C&F Financial Corporation was 12.5%, down slightly from 12.8% end of December 2022 and exceeding the minimum requirement of 6.0%, indicating strong capitalization.

The company has grown earnings by 8% per year over the past nine years and 9.2% over the past five years. The drop in earnings for C&F Financial Corporation in 2017 can be attributed to the effect of the Tax Cuts and Jobs Act, which permanently lowered the federal corporate income tax rate to 21% from the previous maximum rate of 35%. In the case of C&F Financial Corporation, this resulted in a \$6.6 million reduction in the value of its net deferred tax asset and a corresponding incremental income tax expense of \$6.6 million. This significantly impacted the corporation's earnings for that year and especially the fourth quarter of 2017. We expect earnings to increase by 8% per year for the next five years. The company has been able to increase its yearly dividend payout for 13 consecutive years.

Over the last five years, the average annual dividend growth rate is 4.5%. In February 2023, the company increased its quarterly dividend by 4.8% from \$0.42 to \$0.44 per share.

## Valuation Analysis

| Year      | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | Now  | 2028 |
|-----------|------|------|------|------|------|------|------|------|------|------|------|------|
| Avg. P/E  | 10.1 | 9.9  | 9.9  | 10.8 | 26.9 | 11.0 | 9.4  | 6.0  | 6.1  | 6.2  | 6.6  | 7.0  |

During the past decade shares of C&F Financial Corporation have traded with an average price-to-earnings ratio of about 10.6 times earnings and today, it stands at 6.6. We are using 7.0 times earnings as a fair value baseline, implying the potential for a valuation tailwind. The company's dividend yield is currently 3.3% which is above the average yield over the past decade of 3.0%. During the reporting quarter, C&F Financial Corporation repurchased 23,856 shares, or \$1.3 million.

## Safety, Quality, Competitive Advantage, & Recession Resiliency

| Year   | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | Now | 2028 |
|--------|------|------|------|------|------|------|------|------|------|------|-----|------|
| Payout | 28%  | 33%  | 33%  | 33%  | 71%  | 27%  | 27%  | 25%  | 20%  | 20%  | 22% | 20%  |

During the past five years, the company's dividend payout ratio has averaged around 24%. C&F Financial Corporation's dividend is comfortably covered by earnings. Given the expected earnings growth, there is room for the dividend to continue to grow at least at the same pace and keep the payout ratio around the same levels which is safe. Management is targeting a 20% to 30% dividend payout ratio.

C&F Financial Corporation is a typical regional bank with a well-diversified revenue and income business model. The company operates in three distinct segments: mortgage banking, consumer finance, and community banking. By having a presence in these different segments, C&F Financial Corporation can mitigate risks associated with changes in the economy. For example, when interest rates rise and impact loan originations and borrowing costs in the mortgage banking and consumer finance segments, the community banking segment can help offset the negative effects by generating higher earnings. The company views the latest quarterly results as evidence of the value and uniqueness of its diversified business model.

## Final Thoughts & Recommendation

C&F Financial Corporation is a well-established regional bank with a solid earnings track record and a dividend yield of 3.3%. We estimate total return potential of 11.9% per year for the next five years based on an 8% earnings-per-share growth, the dividend yield, and a valuation tailwind. Shares earn a buy rating.
