Overview & Current Events

Amdocs Limited (DOX) is a B2B software company that serves communications service providers (CSPs). The business has software solutions that help CSPs to transition from working in the traditional data center environment to operating effectively in the cloud. The business has developed strong offerings around the cloud microservices architecture, which allows the large and cumbersome applications used by telecom companies to be divided into separate, simple components that can all be managed independently.

Amdocs is set to capitalize on megatrends in 5G, Cloud, and digitalization, and management expects that these megatrends will help their serviceable addressable market continue to expand. The business serves communications service providers across the world with its 29,000 employees and has ~75% recurring revenue. The business's strong resiliency from its recurring revenue business model and strong operations have led to extremely stable operating margins over the past 10 years, where margins have steadily increased to 17.8% in 2023. Management sees room for long term growth in the business by retaining and building new platforms for the current customer base, expanding the footprint within underpenetrated Tier-1 customers, like Verizon and Charter Communications, and adding new businesses to the current services.

On November 7th, 2023, Amdocs Limited reported fourth quarter fiscal year 2023 results for the period ending September 30th, 2023. The company earned \$1.42 in GAAP diluted earnings-per-share for the quarter, up 10.1% from the year-ago quarter's earnings of \$1.29 per share and came in above the midpoint of management's guidance of \$1.38 to \$1.44. Amdocs reported record revenues of \$1.24 billion, which is an increase of 6.5% compared with the year-ago quarter.

Amdocs' top-line performance was primarily driven by continued strength in North America and strong activity levels among top consumers in Europe. The North America region reported record revenues of \$834.4 million (67.2% of the total revenues), which is a 5% year-over-year increase. Europe revenues (14.1%) of \$175.5 million increased 20% year over year. Rest of the World revenues (18.7%) climbed 3% year over year to \$232.6 million. For the full-year fiscal 2023, the company reported record revenue of \$4,888 million, up 6.8% for the year, including record revenue of \$3,307 million in North America and record revenue of \$703 million in Europe and non-GAAP diluted EPS of \$5.91, up 11.5% for the year. For fiscal 2024, the company anticipates revenue growth of 1-5% on a reported basis and an EPS growth in the range of 8.0% to 12.0%. For the first quarter of fiscal 2024, the company projects revenues between \$1,225 million and \$1,265 million and adjusted earnings in the range of \$1.53 to \$1.59 per share.

Growth on a Per-Share Basis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029

Amdocs Limited (DOX)

Updated November 13th, 2023, by Patrick Neuwirth

Over the past decade, Amdocs has seen earnings-per-share grow at an average annualized rate of 9.5%, and over the past 5 years, the business has seen earnings-per-share grow at 13.4% annually. Management guided for 8% to 12% year-over-year adjusted earnings-per-share growth for 2024. We conservatively forecast that over the intermediate term, the business will grow earnings-per-share at 10.0% annually, which guided our 2029 earnings-per-share estimate of ~\$10.47.

Over the past decade, the business has grown dividends at 12.6% annually, and over the past 5 years, the business has grown dividends at 9.4% annually. Over the next 5 years, we forecast dividend growth of about 8% annually, because we expect dividend growth to be a little slower than earnings-per-share growth. The company has been able to increase its yearly dividend payout for 10 consecutive years. In February 2023, the quarterly dividend increased by 10.1% from \$0.395 to \$0.435 per share.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Avg. P/E	16.9	17.7	21.2	20.8	26.9	17.4	17.3	19.2	18.0	14.0	12.3	17.0
Avg. Yld.	1.9%	1.3%	1.3%	1.4%	1.5%	1.8%	2.0%	1.9%	2.0%	2.0%	2.2%	1.4%

Over the past decade, Amdocs has averaged a P/E of 18.9, and over the past 5 years, the business has averaged a P/E of 17.2. We estimate that over the intermediate term, the business will trade for a P/E ratio of around 17, in line with historic P/E valuation multiples. Today, the stock offers a 2.2% dividend yield, which is not ideal for investors seeking dividend income. Investors may find this business attractive because of the company's recurring revenue business model, and the fact that the company is poised to benefit from megatrends like 5G, AI, cloud, and digitalization.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Payout	21%	23%	23%	28%	29%	39%	32%	34%	37%	36%	27%	24%

The company has averaged a payout ratio of 31.0% over the past 10 years, and 33.6% over the past 5 years. With a low payout ratio below 30%, we expect that the dividend is safe from any cuts or decreases because it is well-covered by earnings. The business has a strong balance sheet, with almost enough cash on hand to cover all debt. As a recurring revenue business, this company has strong recession resiliency, and has seen revenue increase every year for the past 10 years. This business may have a competitive advantage because of its niche offering it provides to CSPs.

Final Thoughts & Recommendation

Amdocs Limited has a recurring revenue business model that is helping to digitize communications service providers. Management expects the company to benefit from megatrends like 5G, the cloud, AI, and digitalization. At today's price, we rate the stock as a buy because total return prospects come in at 18.8% annually over the next five years driven by a 2.2% dividend yield, an estimated 10.0% annual earnings-per-share growth over the intermediate-term, and a valuation tailwind.
