Overview & Current Events

Badger Meter was founded in 1905 in Milwaukee, WI. The company's first product was a "frost proof" water meter. Today, Badger Meter manufactures and markets meters and valves that are used to measure and control the flow of liquids, such as water, oil and various chemicals. The company's products are also used to control the flow of air and other gases. Badger Meter generates ~\$750 million in annual revenues. The company is also a founding member of the American Water Works Association, a trade group that sets water measurement standards in the U.S.

On August 14th, 2023, Badger Meter increased its quarterly dividend 20% to \$0.27 per share for the September 8th payment date, extending the company's dividend growth streak to 31 consecutive years.

On January 26th, 2024, Badger Meter reported fourth quarter and full year earnings results for the period ending December 31st, 2023. For the quarter, revenue grew 23.8% to \$182.4 million, which was in-line with estimates. Earnings-per-share of \$0.84 compared favorably to earnings-per-share of \$0.60 in the prior year and was \$0.02 above expectations. For 2023, revenue grew 24% to a record \$703.6 million while record earnings-per-share of \$3.14 compared to \$2.26 in the previous year.

The utility water business surged 28% for the period. As with prior quarters, this growth was led by high demand for ORION Cellular endpoint, E-Series Ultrasonic meters, and BEACON Software as a Service. Higher demand for water quality and pressure monitoring products also aided results. Revenue for flow instrumentation products were up slightly for the period due to ongoing demand for water-focused end markets and HVAC, offset by lower growth rates in other industrial markets. Gross margins improved 50 basis points to 39.2% while the operating margin expanded by 230 basis points to 17.6%.

We forecast that Badger Meter will earn \$3.46 per share in 2024, which would represent a 10.2% increase from last year. We have initiated our forecast accordingly.

Growth on a Per-Share Basis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
EPS	\$1.03	\$0.90	\$1.11	\$1.19	\$1.54	\$1.61	\$1.69	\$2.08	\$2.26	\$3.14	\$3.46	\$5.08
DPS	\$0.37	\$0.39	\$0.43	\$0.49	\$0.56	\$0.68	\$0.72	\$0.76	\$0.85	\$0.99	\$1.08	\$1.59
Shares³	29	29	29	29	29	29	29	29	29	29	29	29

Badger Meter has increased earnings per share by 13.2% per year over the past decade and 16.5% over the last five years. The company's business was resilient in the face of the pandemic in 2020, showing Badger Meter's underlying strength. We reaffirm our increased projected earnings growth rate to 8% from 7% to reflect the quality of results over the medium- and long-term. Badger Meter's ability to control costs, and thereby boost margins, should help offset any

weakness in revenue that may occur due to supply chain issues. We expect that dividend growth will reflect earnings growth.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Avg. P/E	25.6	33.2	30.6	34.8	31.8	34.9	39.1	51.2	48.2	49.2	41.6	35.0
Avg. Yld.	1.4%	1.3%	1.3%	1.2%	1.1%	1.1%	1.1%	0.7%	0.8%	0.6%	0.8%	0.9%

Shares of Badger Meter have increased \$5, or 3.6%, since our October 20th, 2023 update. The stock has an average price-to-earnings ratio of 37.9 over the last decade. We raise our target P/E ratio to 35 from 30 to bring it more in-line with the stock's long-term average valuation. The stock has a current P/E ratio of nearly 42 times expected earnings, meaning that shareholders are very likely to see headwinds from valuation reversion in the coming years. Reverting to our target valuation by 2029 would reduce annual returns by 3.4% over this period.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	36%	43%	39%	41%	36%	42%	43%	37%	38%	32%	31%	31%

Given Badger Meter's 31-year dividend increase streak and reasonable payout ratio, the dividend is very safe today. We also see plenty of room for growth in the payout, so Badger Meter is certainly attractive from a dividend growth perspective.

Unlike many companies at the height of the last recession, earnings-per-share for Badger Meter improved. Most of the company's sales are made to municipal water utilities. A key competitive advantage that Badger Meter possess is that consumers require access to water, regardless of economic conditions. In addition, it is estimated that there are more than 30 million water meters in the U.S. that are not monitored with the advanced equipment that Badger Meter offers. And with some states, like California, looking to improve its water monitoring systems for use in times of droughts, the company is in a prime position to benefit from upgrades and improvements.

Final Thoughts & Recommendation

Following fourth quarter earnings results, Badger Meter is projected to return 5.1% annually through 2029, compared to our prior estimate of 0.9%. This projected return stems from an 8% earnings growth rate and starting yield of 0.8% that are partially offset by multiple compression. Badger Meter continues to see impressive results from its water utility business as demand remains very high nearly across the board. We have raised our five-year price target \$40 to \$178 due to earnings estimates for the year and now view shares of Badger Meter as a hold due to projected returns.
