Overview & Current Events

Innovative Industrial Properties, Inc. is a single-use “specialty REIT” that exclusively focuses on owning properties used for the cultivation and production of marijuana. Because the industry is in the midst of a legal transition, there are constraints on capital available to businesses engaged in the marijuana business. IIPR went public in a “loophole” time period. No other cannabis-related REITs have been approved for listing on the NYSE or the NASDAQ. Having the fortunate status as the only publicly traded marijuana REIT in the US has led to stunning returns and portfolio growth. The \$2.64 billion REIT owns 108 properties in 19 states. Due the cannabis boom over the past few years, as well as its exclusivity in terms of the listing giving the trust access to public markets, Innovate Industrial Properties is a truly unique REIT.

On December 15th, 2023, Innovative Industrial Properties increased its dividend by 1.1% to a quarterly rate of \$1.82.

On February 26th, 2024, the company announced its Q4 and full-year results for the period ending December 31st, 2023. For the quarter, revenues and normalized AFFO/share were \$79.2 million and \$2.28, up 12.3% and 7.5%, respectively. The company's growth was primarily driven by an increase in tenant reimbursements compared to last year, as well as activity in prior periods for the acquisition and leasing of new properties. Additional building infrastructure allowances provided to tenants at certain properties that resulted in increases to base rent and contractual rental escalations at certain properties also boosted results. For the year, AFFO/share reached \$9.08, up 7.5% compared to the previous year.

As of December 31st, 2023, 98.5% of IIPR's properties were leased with a weighted average remaining lease term of approximately 14.6 years. The company collected 100% of rent due in Q4 and through February. Based on Innovative Industrial's lease profile, we forecast AFFO/share of \$9.00 for fiscal 2024.

Growth on a Per-Share Basis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
AFFO	---	---	-\$0.62	\$0.67	\$1.34	\$3.27	\$5.01	\$6.66	\$8.45	\$9.08	\$9.00	\$11.49
DPS	---	---	---	\$0.55	\$1.20	\$2.83	\$4.47	\$5.72	\$7.10	\$7.22	\$7.28	\$9.29
Shares²	---	---	1.0	3.4	7.3	10.7	19.4	23.9	27.3	28.0	28.0	35.0

Industrial Innovating Properties has seen AFFO/share grow dramatically since the trust's IPO. To capitalize on the growth of the cannabis sector, IIPR acquired 37 and nine properties in 2021 and 2022, respectively. With the schedule-1 drug being decriminalized in one state after the other, we expect to see the current growth rates sustained in the medium term. In line with its AFFO growth, management has consistently raised the dividend, often on a sequential basis. Payouts grew by just 1.7% in FY2023. We retain our AFFO/share growth estimate to 5%. This is largely to be prudent against rising interest rates and the possibility of some of the company's tenants being unable to pay rent. We have also set our dividend per share growth estimate at 2%, reflecting the recent deceleration in dividend growth. As mentioned in previous reports, and it was once again proven in FY2022 results, these estimates will likely turn out to be prudent.

¹ Estimated dates based on past dividend dates.

² Share count is in millions.

Innovative Industrial Properties (IIPR)

Updated February 27th, 2024 by Nikolaos Sismanis

Still, IIPR has short trading history, and its acquisition-driven strategy may see availability headwinds in the future, which also supports the case for our more reserved estimates.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Avg. P/FFO	---	---	---	47.8	12.2	16.6	30.2	33.0	18.9	8.9	10.4	10.5
Avg. Yld.	---	---	---	3.4%	3.3%	2.8%	2.8%	2.6%	4.4%	9.0%	7.8%	6.7%

IIPR's shares underwent a violent valuation multiple compression last year. The stock's P/FFO now stands at 10.4X our FY2024 expected AFFOs. We believe the stock is rather fairly valued here. The REIT's financials remain robust, but we remain wary of the intricacies of its tenant base and higher interest rates. We have set our fair valuation multiple at 10.5 through 2029. Shares are now yielding 7.8%, which remains a hefty tangible return considering the company's sustained growth.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	---	---	---	82%	90%	87%	89%	86%	84%	80%	81%	70%

Despite the company's high payout ratio, we believe the dividend should remain well-covered. Last year's bold dividend increases reassure us of that. Regarding its qualities, being the only listed pure-cannabis REIT, the company has a massive moat. With access to public markets, management can issue debt and equity much cheaper than its few private competitors. IIPR can build more durable and sustainable relationships with tenants as it possesses higher credibility and transparency. With more states legalizing weed over time, the company is subject to a fantastic medium/long-term expansion trend. Despite the headwinds COVID-19 caused in many industries, IIPR was barely affected, continuing its proven acquisition-based growth model. That said, because of how new the cannabis sector is, its recession resiliency is untested to the passage of time and remains to be seen. And, despite its average lease duration standing at a fantastic 14.6 years, we are wary of the tenants' ability to commit to their leasing obligations. This is due to many of them facing financial hurdles as a result of the steep competition in the cannabis space, as well as the industry's razor-thin margins.

Final Thoughts & Recommendation

Innovative Industrial Properties is a genuinely unique investment case. Instead of guessing which cannabis-producing stock will be a long-term winner, investors can profit off of what every producer needs, which is specialized property. This way, the sector's growth can be taken advantage of while benefiting from the consistent rental cash flows from IIPR's facilities. While most cannabis producers still struggle to make money, IIPR continues to post robust results. We forecast an annualized return of 11.2% until 2029. Shares earn a buy rating, but for investors who are prepared to deal with significant fluctuations in the stock price.
