Overview & Current Events

AllianceBernstein Hldg. L.P. (AB) is an asset manager with an emphasis on fixed income investments, but offers diversified investment solutions for institutional investors, private wealth clients, and retail investors. The company traces its roots back to Sanford C. Bernstein & Company, founded in 1967, and to Alliance Capital, founded in 1971. In October 2000, Alliance Capital acquired Sanford C. Bernstein. At the current time, a subsidiary of AXA Equitable Holdings Inc. (EQH) owns two thirds of the limited partnership units and the general partner of AllianceBernstein. The partnership has a market capitalization of approximately \$3.8 billion with 4,100 employees.

On February 6th, 2024, AllianceBernstein Holding L.P. reported financial and operating results for Q4. While total revenues increased year-over-year, driven primarily by higher performance fees, the company faced continued declines in Assets Under Management (AUM). This decline in AUM, fueled by market volatility and net outflows, impacted overall profitability. Despite these challenges, AllianceBernstein managed expenses effectively, leading to a modest increase in operating income compared to the prior year. The firm reiterated its focus on delivering value to clients by providing diverse investment solutions across asset classes. Seth Bernstein, President and CEO of AllianceBernstein, acknowledged the broader market challenges affecting Q4 results. He highlighted the progress made in expanding the company's private markets platform and growing alternative investments as potential drivers of future growth. Bernstein reaffirmed AllianceBernstein's long-term commitment to innovation and client-centric solutions across its product suites, underscoring a potential for a sustained performance improvement.

Growth on a Per-Share Basis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
EPU	\$1.84	\$1.86	\$2.23	\$2.19	\$2.50	\$2.30	\$2.91	\$3.89	\$2.94	\$2.69	\$3.00	\$3.93
DPU	\$1.89	\$1.86	\$1.92	\$2.30	\$2.88	\$2.25	\$2.91	\$3.90	\$2.56	\$2.69	\$3.08	\$3.93
Units³	100.8	100.0	96.7	96.5	96.7	98.2	98.3	99.4	113.8	114.4	114.4	120

AllianceBernstein has grown its earnings per unit (EPU) at a relatively slow pace over time given its high dividend payout that limits the amount of capital that it retains for reinvesting in its business. Assets under management have decreased during the past decade but have stagnated in recent years. Earnings-per-unit are expected to grow at a 5.5% CAGR over the next half decade with the distribution growing at a slightly slower pace.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029

AllianceBernstein Hldg. L.P. (AB)

Updated February 23rd, 2024 by Samuel Smith

The company currently trades for a price to earnings ratio of 11.3x relative to our fair value estimate of 10x. At the current price, the units trade above our fair value estimate, meaning that we expect valuation multiple contraction in the coming half decade, which in turn should weigh on total returns.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	103%	100%	86%	105%	115%	98%	100%	100%	87%	100%	103%	100%

AllianceBernstein pays a high distribution yield but does not offer a consistent income stream. Its distribution per unit frequently exceeds its earnings per unit (EPU) and is often reduced when earnings cannot support the payout. The partnership performed very poorly during the previous two U.S. recessions, with major reductions in the distribution and the unit price, as well as reductions in assets under management. We think that will happen again this year after the coronavirus-caused disruption.

Asset managers can build a meaningful economic moat thanks to high switching costs. However, the rise of low-cost passive investing has taken market share and has put pricing pressure on active manager fees and assets under management. AllianceBernstein has a strong track record in fixed income outperformance but has a mixed history of equity performance, and they are not one of the largest asset managers that can compete with pure scale. The partnership has not shown the ability to meaningfully grow assets under management in the current competitive environment for active asset managers.

Final Thoughts & Recommendation

AllianceBernstein offers one of the highest yields in the asset management space, but it comes at the cost of reliability and growth. Given the lucrative dividend yield, AllianceBernstein could be considered a buy for income investors who also have a very bullish view of the economy over the next 5 years. With expected total annualized returns of 11%, we rate AllianceBernstein as a Buy.
