Overview & Current Events

GATX Corporation (GATX) is a railcar leasing company that leases tank cars, freight cars and locomotives to companies in the petroleum, chemical, food/agriculture, and transportation industries. The company also offers services related to the assets that they lease, including routine maintenance, interior cleaning, repairs, and regulatory compliance work. The business operates through its 3 segments: Rail North America (70% of 2023 sales), Rail International (22% of 2023 sales), Portfolio Management (5% of 2023 sales), and the business made the remaining 3% of 2023's revenue from other sources. GATX has a portfolio of about 145,000 railcars, 544 locomotives, 22,000 tank containers, and five vessels.

As a railcar leasing business, management has shared that their capital allocation priorities are to continue investing in core, service-intensive assets (buying more railcars), to keep the balance sheet strong, and to return capital to shareholders through dividends and share buybacks. Although rail-related businesses might seem to belong to a dying industry, the rail car leasing market is expected to expand at over 5.4% annually through 2031, according to TMR. GATX is one of the leading lessors of railcars across many regions and has an advantage in its market due to its size and proven ability to buy and lease these assets.

On January 26th, 2024, GATX raised its dividend by 5.5% to a quarterly rate of \$0.58.

On April 23rd, 2024, GATX reported its Q1 2024 results for the period ending March 31st, 2024. GATX posted adjusted EPS of \$2.01 for the quarter, down from \$2.20 last year, but this beat analyst estimates by 25 cents. Sales increased 12.1% year-over-year to \$379.9 million, beating analysts' estimates by \$3.83 million. Throughout the quarter, Rail North America and Rail International fleet utilization remained above 99%.

GATX's management continues to see strength in the core business through the year, reiterating its FY2024 adjusted (non-GAAP) earnings-per-share to land between \$7.30 and \$7.70. We have utilized the midpoint of this range in our estimates. All EPS figures in our table are in non-GAAP form.

Growth on a Per-Share Basis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
EPS	\$4.34	\$5.30	\$5.75	\$4.72	\$5.20	\$5.51	\$3.54	\$5.07	\$6.07	\$7.07	\$7.50	\$9.57
DPS	\$1.32	\$1.52	\$1.60	\$1.68	\$1.76	\$1.84	\$1.92	\$2.00	\$2.08	\$2.20	\$2.32	\$2.96
Shares	44	42	39	38	37	35	35	35	35	36	36	33

Over the past decade, GATX has seen earnings-per-share grow at an average annualized rate of 5.6%, and over the past five years, the business has seen earnings-per-share grow at 6.4% annually. We conservatively forecast that earnings-per-share will grow at ~5% annually over the next 5 years and that in 2029 earnings-per-share will be around \$9.57.

Over the past decade, the business has also grown dividends at 5.8% annually, and over the past five years, dividends have grown at 3.6% annually. Over the next 5 years, we forecast dividend growth of about 5% annually, and we expect the business to continue buying back shares over the intermediate term, as they have done in most years in the past.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Avg. P/E	14.4	9.9	8.0	12.8	14.4	14.0	19.3	18.7	17.3	14.1	17.2	16.0
Avg. Yld.	2.1%	2.9%	3.5%	2.8%	2.4%	2.4%	2.8%	2.1%	2.0%	2.0%	1.8%	1.9%

Over the past decade, GATX has averaged a P/E ratio of 14.3, and over the past five years, the stock has averaged a P/E ratio of 16.7. We estimate that over the intermediate term, the business will trade for a P/E ratio of around 16. We believe shares are modestly overvalued at their current levels. Today, the stock offers a low 1.8% dividend yield, which likely isn't substantial for investors seeking high dividend income, especially during the current rising-rates market environment.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	30%	29%	28%	36%	34%	33%	54%	39%	34%	31%	31%	31%

The business has averaged a payout ratio of 35% over the past decade, and 38% over the past five years. With a low payout ratio of just over 30%, we believe that the dividend is safe for now and over the intermediate term from any cuts or decreases. The business does have a large amount of long term debt on the balance sheet, but the business has ample liquidity to pay off current liabilities, so we don't think this is a big concern. The business is susceptible to economic downturns, as seen by 2020's earnings-per-share figures, but the company does have a competitive advantage as one of the leading railcar leasing companies in the world.

Final Thoughts & Recommendation

The GATX Corporation is a company that is a market leader in leasing railcars. We rate the stock as a hold because total return prospects are expected to come in at 5.3% annually over the next five years. This projection is driven by the 1.8% yield, an estimated 5% annual increase in earnings-per-share, and a modest valuation headwind.
