Overview & Current Events

ManpowerGroup Inc. (MAN) is a leading global workforce solution company with a well-established network of 2,500 offices in 75 countries and territories. Manpower owns hundreds of subsidiary companies globally and serves large and small organizations through the following brands: Manpower, Experis, and Talent Solutions. The company is one of the three leading diversified global recruitment providers alongside Adecco and Randstad, with each player possessing about 5%-6% of the market share. The major geographic markets for Manpower include the United States (13% of 2021 revenues), Southern Europe (45%), Northern Europe (23%), Asia Pacific/Middle East (12%), and other parts of the Americas (7%).

On October 17th, 2024, the company announced Q3 2024 results, reporting non-GAAP EPS of \$1.29, which beat analysts' estimates by \$0.01, and revenue of \$4.53 billion for the quarter, which was down by 3.2% year over year. In the year-earlier quarter, quarterly net earnings reached \$22.8 million, or \$0.47 per diluted share. Despite this softening, the company still maintained an enviable gross profit margin of 17.3%, buoyed by stable, permanent recruitment levels and resilient staffing margins.

ManpowerGroup adapted to the market by reducing SG&A expenses by 5% in both reporting and constant currency. In addition, the company introduced specially designed Manpower branch offices in certain Walmart stores in the United States and agreed to divest its South Korean operations, which will operate as a franchise in the future. The company expects fourth-quarter earnings per share, before restructuring costs, to be in the range of \$0.98 to \$1.08.

Growth on a Per-Share Basis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029

Shares³	78.1	73.0	67.0	66.1	60.8	58.7	55.6	53.6	52.2	51.5	51.5	41.6

ManpowerGroup's growth was muted over the last decade, with an EPS growth at a CAGR of 0.9% since 2014. In addition, the company has consistently reduced its outstanding share capital through share buybacks, increasing shareholder returns, with a DPS CAGR of 13.0% for the past decade. Moreover, ManpowerGroup's digitization, innovation, acceleration plans, and sustained investments in technology enhance the company's ability to pursue higher margin opportunities and generate long-term, sustainable value. We have matched analysts' EPS estimates at \$4.75 while we kept the forecasted growth of 5.0% over the next five years, leading to our forecasted EPS of \$6.06 by 2029. Similarly, the DPS estimate stands at \$3.08 for 2024, and we have applied a forecasted growth of 12.0% for the next five years, largely in-line with MAN's 10-year CAGR of 13.0%, leading to our \$5.43 DPS estimate by 2029.

Valuation Analysis

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Now	2029
Avg. P/E	14.3	15.8	12.2	15.9	11.0	11.5	181.4	15.4	12.1	12.8	13.3	13.0
Avg. Yld.	1.3%	1.9%	2.2%	1.7%	2.1%	2.5%	3.0%	2.4%	3.2%	4.0%	4.9%	6.9%

Manpower has been currently trading at a forward P/E of 13.3, in line with its normalized long-term average P/E of 13.4 and above the normalized five-year average P/E of 12.6. We believe that the company's strategic positioning is solid and will continue to thrive in the near future. We have estimated the stock will trade at a P/E ratio of 13.0 by 2029, resulting in a price target of \$79.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2029
Payout	18%	30%	27%	27%	24%	28%	551%	36%	38%	51%	65%	90%

Manpower has provided consistent shareholder returns and paid dividends with a 10-year normalized payout ratio averaging 83%. We expect the company to maintain its healthy payout ratio in the future and have assumed a payout ratio of 85% going forward. Additionally, the company made share repurchases of \$270 million in 2022 and \$179.8 million in 2023. During Q3, the company repurchased \$29 million of common stock, and foreign currency fluctuations unfavorably impacted results by a modest amount. Even though the staffing industry is highly competitive and cyclical in nature, Manpower has an established centralized database to match employers with best-suited candidates, and we expect the company to continue to face fierce competition from other global staffers like Randstad, Adecco, and Randstad, which will inhibit the company's ability to gain market share.

Final Thoughts & Recommendation

We expect the labor market to remain tight in the coming years. Before the COVID-19 pandemic, the U.S. labor market was tight as the headline unemployment rate fell to 3.7%. This level skyrocketed during the first half of 2020, but has returned to a below pre-pandemic rate of 4.1% in 2024. We expect it will stay near this level in the near-term. In addition, the trend of hybrid working models and the shift toward recruitment outsourcing by employers is expected to continue, which will benefit the company. However, considering the cautious and macro-outlook, we maintain our hold premised upon the 9.8% annualized total returns for the medium-term, derived from the forecasted earnings-per-share growth of 5.0%, the 4.9% dividend yield, and a valuation headwind.
