We added 127 update reports, 8 new reports, and 8 removed reports to the Sure Analysis Research Database since last week's email update.

We are in the midst of updates from Q4 2024 earnings releases, which is why there's a high level of report updates currently.

We are also removing many securities with less than 5+ years of rising dividends, and replacing them with securities (new reports) with longer dividend histories. So far, removals have outpaced new report additions, but that will change over the next several weeks as we work through report updates and begin adding more new dividend growth securities to Sure Analysis.
