Overview & Current Events

Alliant Energy Corporation is a public utility holding company incorporated in Madison, Wisconsin, in 1981. In 2022, Alliant Energy generated \$4.0 billion in operating revenues. The company serves approximately 970,000 electric and 420,000 natural gas customers. Alliant has about 3,600 employees. The largest cities in Iowa and Wisconsin are Cedar Rapids and Beloit, respectively, based on electric sales. The company consists of three subsidiaries. The first is the largest, Interstate Power and Light Company (IPL), which accounted for 51.2% of Alliant's 2024 earnings. IPL is a public utility that generates and distributes electricity and distributes and transports natural gas in Iowa. The second subsidiary is Wisconsin Power and Light Company (WPL), which provides similar services to IPL in southern and central Wisconsin. WPL contributed 44.6 of total 2024 earnings. The last is Corporate Services, which account for a tiny percentage of the company's total earnings.

On October 31st, 2024, Alliant Energy reported third-quarter results for Fiscal Year (FY)2024. The company reported 2024 GAAP earnings per share (EPS) of \$2.69, down from \$2.78 in 2023, while non-GAAP EPS rose to \$3.04 from \$2.82. The company reaffirmed its 2025 EPS guidance of \$3.15 to \$3.25, supported by higher revenue from capital investments, offset by increased depreciation and financing costs.

In 2024, Alliant Energy expanded its clean energy portfolio by adding 1,500 megawatts of solar power, complementing 1,800 megawatts of wind energy. The company also contributed to economic development with a major investment in Cedar Rapids, Iowa.

For 2025, earnings projections rely on stable economic conditions, authorized returns, and effective execution of capital and cost-control plans. The forecast excludes potential regulatory changes and tax adjustments, positioning the company for continued growth.

Growth on a Per-Share Basis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
EPS	\$1.74	\$1.87	\$1.93	\$2.17	\$2.31	\$2.43	\$2.63	\$2.80	\$2.82	\$3.04	\$3.22	\$4.31
DPS	\$1.10	\$1.18	\$1.26	\$1.34	\$1.42	\$1.52	\$1.61	\$1.71	\$1.81	\$1.92	\$2.03	\$2.72
Shares¹	225.0	227.0	229.0	233.0	239.0	249.0	250.7	251.2	253.0	256.8	257.0	258.0

LNT's earnings have been steadily growing at a rate of 6.4% annually for the past ten years. As a utility company, LNT is restricted on how it can increase its rate of returns. The net margin has been gradually growing as well. In 2010, the net margin was 8.4%. Now net margin is at a rate of 16.3%. This is a byproduct of the tax rate decreasing from a high of 32% in 2010 to 10.8% last year. However, the share count has increased at a compound growth rate of 0.6% for the past five years. This dilutes the EPS slightly.

We expect earnings to continue to grow at a modest rate of 6%, giving us an estimated EPS of \$4.31 for 2030. The company has also been very consistent with its dividend policies. LNT has been growing dividends for the past 21 years. In the last ten years, dividend growth has averaged 6.4% annually. We are conservative and predicting a dividend growth rate of 6% for the next five years. The company increased its dividend by 5.7% on January 20, 2025.

Valuation Analysis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	Now	2030
Avg. P/E	18	20.3	22.1	19.5	23.7	21.2	23.4	19.7	18.2	19.5	20.1	20.0
Avg. Yld.	3.5%	3.1%	3.0%	3.2%	2.6%	3.0%	2.6%	3.1%	3.5%	3.3%	3.1%	3.2%

The company has been valued somewhat at a premium since 2016. For the past ten years, LNT has had an average PE of 20.6x compared to the current PE of 20.1x. We think a fair valued PE is 20x, lower than its five-year average. The current dividend yield is higher than the company's 5-year average of 2.9%. We think LNT is fair valued at the current price.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
Payout	63.2%	63.1%	65.3%	61.8%	61.5%	62.6%	61.2%	61.1%	64.2%	63.2%	63%	63%

The company's competitive advantage is that a utility company is very monopolizing as there is only one utility company in any given area. Thus, utility stocks are often held by investors for their defensive nature. People will always need to power their homes and businesses. However, LNT shows that earnings can decrease during a recession. For example, during the Great Recession from 2008 to 2009, its earnings-per-share fell from a high of \$1.35 in 2007 to \$0.98 in 2009. Earnings did bounce back big by 40% in 2010, to \$1.38. Even though earnings fell significantly in this period, the dividend was not cut. It was raised from \$0.70 in 2008 to \$0.75 in 2009. This shows that LNT is committed to paying growing dividends. The debt-to-Equity ratio (D/E) is 1.2 for the year compared to 1.1 in FY2021. Even though the D/E rate increased, the company still holds a credit rating of A- with S&P and has a healthy interest coverage ratio of 2.3.

Final Thoughts & Recommendation

Alliant Energy is a safe business. The company continues to produce a very reliable and growing dividend. The dividend has been increasing for the past 22 years. At the current price, the company is fairly valued with a target price of \$64. Thus, we recommend a hold at the current price. We see 8.7% expected annual total returns for an excellent, dependable business in the next five years.
