Overview & Current Events

Service Corp International is a personal services company that provides funeral and cemetery services and products from its locations throughout the United States and Canada. The company segments its operations into funeral service and cemetery business functions. The company provides all professional services, facilities, vehicles, and merchandise related to funerals and cremations at its funeral service locations. Cemetery locations provide customers with cemetery property, memorial markers, and graveyard services. The company derives much of its revenue from its funeral locations, while the cemetery division also generates a meaningful amount of the company's total income. The company trades under the ticker symbol SCI with a market capitalization of \$11.4 billion and total revenue of \$3.8 billion in 2024. The company currently has fourteen consecutive years of dividend growth.

On October 30th, 2024, the company reported its third quarter financial results. The company reported a 4% revenue increase in Q4 2024, driven by growth in both funeral and cemetery segments. Preneed cemetery sales rose 2.0%, core funeral sales increased 2.7%, and gross profit grew 6% to \$18 million. GAAP earnings per share (EPS) rose 12% to \$1.04 for the quarter and remained flat at \$3.53 for the full year. Adjusted EPS increased 14% to \$1.06. Operating cash flow reached \$264 million for the quarter and \$945 million for the year, with adjusted operating cash flow at \$977 million, exceeding expectations.

Strong cash flow allowed SCI to invest \$181 million in acquiring 26 funeral homes and six cemeteries and \$62 million in real estate expansion. Despite fewer services performed, higher preneed cemetery sales and funeral agency revenue offset declines. CEO Tom Ryan highlighted SCI's financial strength and commitment to long-term growth through strategic investments and operational efficiencies.

For 2025, SCI projects adjusted EPS between \$3.70 and \$4.00, targeting 8%-12% growth. The company expects continued revenue expansion and remains confident in sustaining profitability despite restructuring and legal expenses.

Growth on a Per-Share Basis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030

Earnings have been growing significantly over the past ten years. For example, earnings have had a CAGR of 12.9% over the past ten years. Over the past five years, the company's earnings growth was 5.8%. Revenue growth has been 9.10% over the past three years. However, because of the fast growth in 2021, we expect the company to grow earnings at a CAGR of 5% for the next five years.

Valuation Analysis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	Now	2030
Avg. P/E	22.1	22.0	24.1	22.2	24.3	16.9	15.5	18.2	19.7	22.6	20.6	20.0
Avg. Yld.	1.7%	1.8%	1.6%	1.7%	1.6%	1.6%	1.2%	1.5%	1.6%	1.5%	1.6%	1.7%

The company looks overvalued at the current price point. Over the past ten years, the company has averaged a PE of 20.5x. We think that a PE of 20x is fair. At the current price, the company now sports a PE of 20.6x. Thus, it is over its ten-year average. The current dividend yield of 1.6% is in line with its ten-year average of 1.6%. Thus, the company looks fairly valued based on dividend yield.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
Payout	37.3%	39.5%	37.4%	38.0%	37.9%	26.8%	19.3%	26.8%	32.3%	34.0%	32%	33%

Service Corporation International's competitive advantage is that it is the most prominent funeral home/cemetery operator in North America. This benefits the company because it can operate more efficiently. This also allows the company to take advantage of the funeral home/cemetery market. The top three companies have only 15% of the total market share in the funeral home/cemetery market. Thus, this leaves plenty of room for industry consolidation, which Service Corporation should be able to take advantage of.

During the Great Recession, the company did well. Earnings were flat in 2008 and only decreased by (2)% in 2009. However, the company stock price did take a significant price decrease of (75.4)% in those years. During the COVID-19 pandemic, the company did very well. Earnings grew 53% in 2020 and 57% in 2021. Thus, the company is very resilient to a recession.

The company balance sheet looks well enough. The company has an S&P credit rating of BB+, which is not an investment grade. Also, the company currently has a debt-to-equity ratio of 2.9x, which is a little on the high side. However, interest coverage is satisfactory at 3.6x.

Final Thoughts & Recommendation

Service Corp International is a company that goes under the radar for most investors. The company is a solid business that should continue to do well over the long term. We expect the company to generate a 5.9% total return CAGR over the next five years. This will mostly come from earnings growth. Thus, we rate the stock as a hold at the current price.
