Overview & Current Events

Business First Bancshares, Inc. (BFST) is a United States-based bank holding company headquartered in Baton Rouge, Louisiana. Through its subsidiary, b1BANK, the company offers a comprehensive range of financial services, including personal and commercial banking, treasury management, and wealth solutions. Catering primarily to small-to-midsized businesses and professionals, BFST generates the majority of its revenues from interest income on loans, customer service and loan fees, and interest income from securities. Business First Bancshares is an \$693 million company that was founded in 2006 and has about 750 employees.

In October 2024, Business First Bancshares completed the acquisition of Oakwood Bancshares, Inc., adding approximately \$863.6 million in total assets, \$700.2 million in loans, and \$741.3 million in deposits. This strategic acquisition is expected to drive future growth and enhance the company's footprint in Louisiana and Texas, strengthening its position in core markets. Management emphasized ongoing technology investments and preparations for a core system conversion in Q2 2025, positioning these initiatives as key drivers of long-term operational efficiency and enhanced client service.

On April 24th, 2025, Business First Bancshares released its financial results for first quarter 2025 ending March 31st, 2025. For the quarter, the company reported net income of \$19.2 million, compared to \$15.1 million in Q4 2024 and \$12.2 million in Q1 2024. Earnings per diluted share (EPS) were \$0.65, up from \$0.51 in the prior quarter and \$0.48 in the same period last year. Net interest income was \$66.0 million, an increase from \$65.7 million in Q4 2024 and \$51.5 million in Q1 2024, supported by a net interest margin (NIM) expansion to 3.68%, up from 3.61% in Q4 and 3.32% a year ago. This improvement reflects effective management of deposit pricing and funding costs. Total deposits declined to \$6.46 billion, down \$53.1 million (-0.82%) quarter-over-quarter, with new account openings totaling \$379.9 million. Non-interest-bearing deposits represented approximately 20.3% of total deposits. Total loans held for investment remained essentially unchanged at \$5.98 billion, with a slight \$0.5 million decline due to the conversion of multifamily construction loans into permanent financing. Non-interest income increased to \$13.2 million, up from \$11.9 million in Q4 and \$9.4 million in Q1 2024, driven by strong SBA loan sales and equity investment gains. Non-interest expenses rose to \$50.6 million, primarily due to merit increases and acquisition-related retention and severance costs. The provision for credit losses was \$2.8 million, compared to \$6.7 million in Q4 2024 and \$1.2 million in Q1 2024, reflecting isolated credit deterioration in two commercial relationships. The allowance for credit losses increased to 1.01% of total loans.

Valuation Analysis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	Now	2030
Avg. P/E	--	--	--	4.8	13.4	16.8	10.6	8.3	11.0	15.6	8.8	12.0
Avg. Yld.	--	--	--	1.0%	1.5%	2.0%	1.6%	2.2%	2.0%	2.2%	2.4%	1.7%

During the past decade shares of Business First Bancshares have traded with an average price-to-earnings ratio of about 12 and today, it stands at 8.8. We are using 12 times earnings as a fair value baseline, implying the potential for a valuation tailwind. The company's dividend yield is currently 2.4% which is above the average yield of 1.8% over the past decade.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
Payout	--	--	--	20%	22%	24%	18%	21%	19%	25%	21%	21%

During the past five years, the company's dividend payout ratio has averaged around 21%. Business First's dividend is comfortably covered by earnings. Given the expected earnings growth, there is room for the dividend to continue to grow at least at the same pace and keep the payout ratio around the same levels which is safe.

Business First demonstrates strengths in its business model through revenue diversification, strong deposit and loan growth, and improved asset quality, supported by the strategic Oakwood Bancshares acquisition. The company's expanding footprint and increased revenue streams position it well for future growth. However, rising operating expenses, including acquisition-related costs, and slight margin pressures from a declining interest rate environment pose challenges. Additionally, the integration of Oakwood, while promising, involves potential risks in achieving operational synergies and managing costs. Despite these hurdles, BFST's strategic initiatives provide a solid foundation for long-term growth and resilience.

Final Thoughts & Recommendation

Business First Bancshares, Inc. is a well-established regional bank, with a strong presence in commercial banking, a growing presence across Louisiana and Texas, a sound earnings profile, and a dividend yield of 2.4%. We estimate total return potential of 14.5% per year for the stock over the next five years based on a 6% earnings-per-share growth, the dividend yield, and a valuation tailwind. Shares earn a hold rating.
