Overview & Current Events

First Mid Bancshares, Inc. (FMBH) is a 1982-founded financial holding company that offers a comprehensive range of banking and financial services through its American subsidiaries. Customers of the business include commercial, retail, and agricultural clients. The company provides deposit products, loans, wealth management, brokerage, Ag services, and insurance through a sizable network of locations across Texas, Illinois, and Missouri, as well as a loan production office in the greater Indianapolis area. First Mid is a company that prioritizes the community and has built a strong reputation in the communities it serves, and its total asset size is \$6.7 billion.

On April 30th, 2025, the company announced results for the first quarter of 2025. First Mid Bancshares reported Q1 non-GAAP EPS of \$0.96, beating the market's estimates by \$0.02.

First Mid Bancshares kicked off 2025 with record quarterly net income of \$22.2 million, reflecting robust operational execution and margin expansion. The company's net interest margin rose to 3.60%, a 19 basis point gain driven by both higher asset yields and reduced funding costs, marking the fourth consecutive quarter of net interest income growth. Loans increased modestly by \$26.4 million to \$5.7 billion, supported by strength in construction, multifamily, and Ag loans. Deposits also climbed 1.2% to \$6.13 billion, with time and non-interest-bearing accounts leading inflows. FMBH's tangible book value rose 4.4%, fueled by earnings growth and an improved securities portfolio.

Asset quality remained strong, with the allowance for credit losses at \$70.1 million (1.23% of loans) and nonperforming loans down to \$26.6 million. Net charge-offs were \$1.8 million. Noninterest income was \$24.9 million, down from Q4 due to the absence of a property sale gain, while insurance revenue hit a record. On the expense side, noninterest costs dropped to \$54.5 million, helped by reduced tech-related one-time charges. The company's efficiency ratio held steady at 58.9%. Capital levels remain healthy across all regulatory metrics, and the board declared a \$0.24 quarterly dividend. Management emphasized resilience amid macro uncertainty, highlighting diversified revenue streams and a disciplined credit culture as key strengths going forward.

Growth on a Per-Share Basis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
EPS	\$1.81	\$2.05	\$2.13	\$2.52	\$2.87	\$2.70	\$2.87	\$3.60	\$3.40	\$3.30	\$3.75	\$4.79
DPS	\$0.59	\$0.62	\$0.66	\$0.70	\$0.76	\$0.81	\$0.85	\$0.90	\$0.92	\$0.94	\$0.96	\$1.17
Shares¹	8.5	12.5	12.7	16.7	16.7	16.7	18.1	20.2	21.1	23.9	20.8	18.0

Considering FMBH's high asset quality, we do not expect the higher interest rate environment to impact its performance materially. However, the bank is small and vulnerable to the macro environment. Thus, our EPS forecast stands at \$3.75 for 2025, matching the midpoint of analysts' estimates. Also, we have maintained the annual EPS growth rate of 5.0% for the next five years, reaching \$4.79 by 2030. First Mid Bancshares's DPS had a 10-year and 5-year CAGR of 5.3% and 3.5%, respectively. Moreover, the bank has consistently increased dividend distributions to shareholders for the past 14 years, and we expect it to continue this track.

¹ In millions.

Valuation Analysis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	Now	2030
Avg. P/E	11.9	12.9	16.6	14.9	11.9	10.2	14.3	10.1	8.3	10.7	9.6	11.0
Avg. Yld.	2.7%	2.3%	1.9%	1.9%	2.2%	2.9%	2.1%	2.5%	3.2%	2.7%	2.7%	2.2%

First Mid Bancshares is trading at a forward P/E of 9.6, around its long-term average P/E of 12.0. Considering the resiliency of the bank and the strength of net interest income amidst the high-interest rate environment, we believe a P/E of 11.0 is a fair starting point given the bank's risk/reward profile, suggesting a five-year target price of \$53.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
Payout	33%	30%	31%	28%	26%	30%	30%	25%	27%	28%	26%	24%

The bank maintained solid capital levels comfortably above the "well capitalized" criteria. Specifically, First Mid Bancshares achieved a "total capital to risk-weighted assets" of 15.59% in the last quarter. Therefore, the bank remains strong and well-positioned if an economic downturn occurs. Lastly, the competition from community banks and brokerage houses has intensified for the company, but by offering wealth management options, the bank effectively kept the customer's cash inside the business but off the balance sheet.

Final Thoughts & Recommendation

The bank capitalizes on elevated interest rate environments, which could offer reasonable downside risk from current share price levels. Thus, we maintain our hold rating premised upon the 10.0% annualized total returns for the medium-term, derived from the forecasted earnings-per-share growth of 5.0%, the 2.7% dividend yield, and a valuation tailwind.
