Eagle Bancorp Montana, Inc. is a bank holding company and its primary business activity is the ownership of Opportunity Bank of Montana (OBMT), a chartered commercial bank. The bank is primarily engaged in attracting deposits from the community and utilizing such deposits, along with borrowings and other funds, to originate one-to-four family residential real estate, commercial real estate, commercial, and agriculture loans. Additionally, the company invests in certain investment and mortgage-related securities. As of the end of the second quarter of 2025, the company's total assets were \$2.14 billion, total loans were \$1.57 billion, and total deposits were \$1.74 billion. Eagle Bancorp Montana operates 32 branch offices across the state of Montana. The company was founded in 1922 and has 385 employees.

On July 29th, 2025, Eagle Bancorp Montana announced its financial results for the second quarter of fiscal year 2025, ending June 30th, 2025. For this quarter, the company reported net income of \$3.2 million, flat compared to Q1 2025 and an 86.4% increase from the \$1.7 million reported for Q2 2024. Reported earnings per diluted share for the quarter were \$0.41, unchanged from Q1 2025 and up from \$0.22 in the same quarter last year. The quarterly earnings reflect Eagle Bancorp's net interest margin (NIM) expansion to 3.91%, up from 3.74% in Q1, supported by higher yields on interest-earning assets and declining funding costs. Total loans increased by 3.4% year-over-year to \$1.57 billion, and 3.0% quarter-over-quarter, showing stronger lending activity. Deposits totaled \$1.74 billion, a 2.8% increase quarter-over-quarter and a 7.4% increase year-over-year, signaling continued strength in liquidity and support for loan growth. Loan growth was led by commercial real estate loans, which rose 7.6% year-over-year to \$675.3 million, and agricultural loans, which increased 13.5% year-over-year to \$317.3 million. The company continues to benefit from improving cost of funds as certificates of deposit reprice lower, following the Federal Reserve's rate cuts in the second half of 2024. Net interest income for Q2 2025 was \$18.1 million, an increase of 7.4% from Q1 2025, driven by loan growth and margin expansion. Noninterest income increased 19.7% quarter-over-quarter to \$4.8 million, primarily due to a rise in mortgage banking revenue. Provision for credit losses increased significantly to \$1.0 million, up from \$42,000 in Q1 2025, reflecting more conservative risk management amid changing economic conditions. For the quarter, Eagle Bancorp's return on average assets (ROA) was 0.61%, and return on average equity (ROE) was 7.23%, both slightly down from Q1 2025. The core efficiency ratio improved further to 76.80%, demonstrating ongoing expense discipline. Credit quality remains solid, with net loan charge-offs totaling \$48,000, and non-accrual loans at 0.32% of gross loans.

Management anticipates steady single-digit loan growth in 2025 and expects further improvement in funding costs, supported by a more stable interest rate environment, which should enhance profitability.

Updated August 1st, 2025, by Sure Dividend Analyst

The company has grown earnings by 7.1% per year since 2015 and -11.4% over the past five years. The above average EPS (\$3.11) in 2020 was driven by higher mortgage banking operations due to the historically low interest rate environment, substantial gains from loan sales, and significant contributions from the Paycheck Protection Program (PPP). These factors, combined with effective cost management, led to record earnings for that year. We expect earnings to increase by 6% per year for the next five years. The company has been able to increase its dividend for an impressive 15 consecutive years. Over the last five years, the average annual dividend growth rate is 8.3%. In July 2025, the company increased its quarterly dividend by 1.8% from \$0.1425 to \$0.1450 per share. During Q2 2025, the company repurchased 25,000 shares at an average price of \$16.34 per share
