Overview & Current Events

Founded in 1906, FB Financial Corporation is one of the longest continually operating banks in Tennessee. As of September 30th, 2025, the Nashville, Tennessee-headquartered financial holding company operated 91 full-service bank branches throughout Tennessee, Kentucky, Alabama, and Georgia. The company also operates a mortgage business with office locations across the Southeast. These offices mostly originate loans to be sold to third-party private investors or government-sponsored agencies in the secondary market. As of September 30th, the company held \$16.2 billion in total assets.

Unsurprisingly, the bank provides customers with an array of products and services. These include savings accounts, money market accounts, checking accounts, and certificates of deposit. FBK's loan products include commercial loans, residential mortgages, construction loans, and vehicle loans. The company also provides customers with trust, insurance, and investment services.

Periodically, FBK leverages acquisitions as part of its growth strategy. The company's latest acquisition was Southern States Bancshares, Inc. (SSBK), the parent company of Southern States Bank, which closed on July 1st. SSBK's 15 branches across Alabama and Georgia, and two loan production offices in the Atlanta MSA, will help FBK expand its reach.

On October 14th, FBK released its financial results for the third quarter ended September 30th, 2025. The company's total revenue soared 94.2% over the year-ago period to \$173.9 million during the quarter. FBK's deal for SSBK mostly contributed to this topline growth in the quarter. The company's net interest income rose by 38.9% year-over-year to \$147.2 million for the quarter. An uptick in total loans and a 40-basis-point expansion in the net interest margin to 3.95% powered this growth during the quarter. FBK's noninterest income swung from a \$16.5 million loss in Q2 2024 (due to a loss on the sale of securities) to \$26.6 million in Q2 2025. FBK's adjusted diluted EPS climbed 24.4% over the year-ago period to \$1.07 for the quarter. This topped the analyst consensus by \$0.11 during the quarter.

Growth on a Per-Share Basis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
EPS	\$1.92	\$2.04	\$2.14	\$2.61	\$2.83	\$3.73	\$3.78	\$2.91	\$3.01	\$3.40	\$3.94	\$5.79
DPS	-	-	-	\$0.20	\$0.32	\$0.36	\$0.44	\$0.52	\$0.60	\$0.68	\$0.76	\$1.17
Shares²	-	24.1	30.5	30.7	31.0	47.2	47.6	46.7	46.9	46.7	54.0	60.0

Over the years, FBK has grown its adjusted diluted EPS by around 6% annually. We think that FBK's adjusted diluted EPS growth can accelerate to around 8% annually. That's because the company's net interest margin is expanding (its SSBK synergies are ahead of schedule and expected to be fully realized by the end of 2025). FBK also has plenty of room for further bolt-on acquisitions. In Tennessee, Alabama, Georgia, Kentucky, North Carolina, South Carolina, and Virginia, the company estimates that there are more than 500 commercial banks with assets of less than \$5 billion that could be acquired. Based on our expectation of more bolt-on acquisitions, we anticipate the share count will somewhat expand over the next five years.

¹ Estimated dates based on past dividend dates.

² Share count is in millions.

Valuation Analysis

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
Avg. P/E	-	11.8	19.6	13.3	13.9	9.3	11.6	12.4	13.2	15.2	14.9	13.0
Avg. Yld.	-	-	-	0.6%	0.8%	1.0%	1.0%	1.4%	1.5%	1.3%	1.3%	1.6%

Since its initial public offering in 2016, FBK’s P/E ratio has varied from as little as the high single digits to as much as approximately 20. Overall, the average over that time was just above 13. Moving forward, we still believe that this represents fair value for FBK. This is because the company’s growth prospects appear to be intact. Compared to the current P/E ratio of 14.9, this implies shares are moderately overvalued.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2030
Payout	-	-	-	8%	11%	10%	12%	18%	20%	20%	19%	20%

FBK has the advantage of being well-known and trusted in the communities that it serves. The company believes that its personalized, relationship-based client service has contributed significantly to its success. Combined with its extensive product offerings, this has helped FBK to reliably make a profit over the years.

As of September 30th, 2025, the company had \$1.9 billion of on-balance sheet liquidity. Off-balance sheet liquidity was \$7.8 billion at the end of the period. That would suggest FBK has the financial strength to endure most economic environments. The company’s dividend also looks reasonably well-covered, with the payout ratio poised to be around 20% in 2025. This should give FBK the flexibility to hike its dividend at a rate greater than adjusted diluted EPS growth for the foreseeable future.

Final Thoughts & Recommendation

FBK’s 1.3% dividend yield, 8.0% annual adjusted diluted EPS growth prospects, and 2.7% annual valuation multiple downside potential could generate 6.4% annual total returns over the next five years. Shares have rallied another 20% in the last few months. This has moved FBK’s valuation even further above fair value, which is why we’re maintaining our hold rating.

Total Return Breakdown by Year

Disclosure: This analyst has no position in the security discussed in this research report, and no plans to initiate one in the next 72 hours.
