Overview & Current Events

Comcast is a media, entertainment and communications company. As of Q1 2023, Comcast began reporting in two key business segments: Connectivity & Platforms (Residential Connectivity & Platforms and Business Services Connectivity), and Content & Experiences (Media, Studios, Theme Parks). Comcast was founded in 1963 and is headquartered in Philadelphia, PA.

Comcast reported its Q1 2026 results on 04/23/2026. Revenue rose 5.3% year over year to \$31.5 billion, operating income fell 27% to \$4.1 billion, dragged down programming and production cost of \$10.9 billion (up 29% year over year). Adjusted earnings fell 31% to \$2.9 billion, while adjusted earnings-per-share (EPS) fell 28% to \$0.79. Adjusted EBITDA (a cash flow proxy) fell 17% to \$7.9 billion and free cash flow came in \$3.9 billion.

The Connectivity & Platforms segment's revenues fell by 1.0% to \$20.0 billion. The segment's adjusted EBITDA fell 4.3% to \$7.9 billion with the margin slipping 1.4% to 39.6%. The Content & Experiences segment's revenue rose 40% to \$11.9 billion, thanks to growth in all operations -- Media revenue climbed 61% to \$7.3 billion (when excluding Olympics and Super Bowl, Media revenue still rose 13% to \$5.1 billion), Studios revenue climbed 21% to \$3.4 billion, and Theme Parks revenue rose 24% to \$2.3 billion. Adjusted EBITDA fell 46% to \$331 million. Particularly, Media segment reported a loss due to upfront programming and production costs for major sports events and new sports rights. For the quarter, Comcast repurchased \$1.3 billion worth of common stock at an average price of ~\$30.95 per share. We update our 2026 EPS estimate to \$3.45.

Growth on a Per-Share Basis

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2031

Shares³	4.75	4.64	4.60	4.62	4.64	4.61	4.29	4.04	3.80	3.71	3.56	3.31

Comcast generates substantial cash flow. From 2021 to 2025, it allocated about 49% of its operating cash flow for capital spending in the long-term growth of the business, which left ample free cash flow to cover the dividend. Capital spending was 43% of operating cash flow in 2025.

From 2016 to 2025, Comcast increased its EPS at a compound annual growth rate (CAGR) of 10.6%. The past five years saw a CAGR of ~7.5% based on normalized earnings for the 2020 pandemic year. Comcast resumed share buybacks in late Q2 2021 after the business recovered from negative COVID impacts. A rebound in earnings is expected as Comcast stabilizes its broadband business, scales wireless, and expands its theme parks. For now, we estimate EPS and DPS growth of 6.5% per year through 2031.

Valuation Analysis

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Now	2031
Avg. P/E	28.1	40.6	21.2	19.9	16.9	18.8	11.5	10.9	10.0	7.3	7.8	9.0
Avg. Yld.	3.1%	3.1%	2.9%	3.1%	2.2%	1.8%	2.6%	2.8%	2.9%	3.9%	4.9%	4.3%

While Comcast was growth stock during the 2010s, over the last few years, it has changed into an income stock. Accordingly, its P/E multiple has contracted. It now trades at a P/E of 7.8 based on our 2026 estimated earnings. Although its average P/E between 2021 and 2025 was 11.7, we think a target P/E of about 9.0 makes more sense due to increasing competition and a changing landscape for the business. So, Comcast stock appears to trade at a slight discount today.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2031
Payout	32%	30%	30%	27%	35%	31%	29%	29%	29%	31%	38%	38%

Comcast has had 17 consecutive years of dividend increases through two recessions. Its 15-year compounded dividend growth rate was 14%. This fast dividend growth was made possible through solid earnings growth and the firm's conservative dividend payout ratio. Its dividend continues to be well-covered by earnings and cash flows. Though, notably, its 5-year dividend CAGR shrank to 7.2%.

Comcast is one of the largest players in the entertainment industry. New market entrants would have to spend many billions of dollars to establish themselves as a key cable player or entertainment network. The cable industry is impacted by the nationwide cord-cutting trend, though, as some customers are ditching traditional pay-TV entirely. Its consolidated business should be resilient with continued profitability and cash flow generation. Comcast's balance sheet remains solid with an S&P credit rating of A-.

Final Thoughts & Recommendation

Comcast has a leveraged balance sheet, and its operations will likely remain challenged this year. We believe Comcast has multi-year turnaround potential. We expect EPS growth to be 6.5% per year. Adding a dividend yield of 4.9% and a valuation expansion of 2.8%, we think Comcast can deliver total returns of 13.3% per year through 2031. Sure Dividend rates Comcast shares as a potential buy for long-term investors with a high-risk tolerance.
