Overview & Current Events

Service Corp International is a personal services company that provides funeral and cemetery services and products from its locations throughout the United States and Canada. The company segments its operations into funeral service and cemetery business functions. The company provides all professional services, facilities, vehicles, and merchandise related to funerals and cremations at its funeral service locations. Cemetery locations provide customers with cemetery property, memorial markers, and graveyard services. The company derives much of its revenue from its funeral locations, while the cemetery division also generates a meaningful amount of the company's total income. The company trades under the ticker symbol SCI with a market capitalization of \$9.8 billion and total revenue of \$3.9 billion in 2025. The company currently has fifteen consecutive years of dividend growth.

On April 29th, 2026, the company reported its first quarter financial results. The company delivered a solid first quarter in 2026, generating revenue of approximately \$1.10 billion, a 2% increase from the prior year. Growth was driven primarily by strong cemetery operations, including higher preneed sales and increased cemetery revenue. While funeral service volumes declined compared to the unusually high levels experienced in the prior year, higher average revenue per service and effective cost management helped offset much of the impact.

The company maintained stable profitability despite lower funeral volumes. Net income attributable to common shareholders was \$135.8 million, and diluted earnings per share (EPS) was \$0.97, essentially unchanged from the prior-year period. Operating cash flow increased 7% to \$333.8 million, reflecting strong cash generation and efficient working capital management.

Management reaffirmed its full-year 2026 guidance and expects adjusted EPS between \$4.05 and \$4.35, along with adjusted operating cash flow of \$1.01 billion to \$1.07 billion. The company remains focused on driving long-term growth through cemetery sales expansion, operational efficiency, disciplined capital allocation, and consistent shareholder returns.

Growth on a Per-Share Basis

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2031
EPS	\$1.29	\$1.55	\$1.79	\$1.90	\$2.91	\$4.57	\$3.80	\$3.47	\$3.53	\$3.85	\$4.10	\$5.23
DPS	\$0.51	\$0.58	\$0.68	\$0.72	\$0.78	\$0.88	\$1.02	\$1.12	\$1.20	\$1.30	\$1.44	\$1.93
Shares¹	196.0	192.0	187.0	186.0	179.0	170.0	160.0	150.0	146.8	142.7	140.0	138.0

Earnings have been growing significantly over the past ten years. For example, earnings have had a CAGR of 12.9% over the past ten years. Over the past five years, the company's earnings growth was -2.1%. However, because of the fast growth in 2021, we expect the company to grow earnings at a CAGR of 5% for the next five years.

¹ Share count is in millions.

Valuation Analysis

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2031
Avg. P/E	22.0	24.1	22.2	24.3	16.9	15.5	18.2	19.7	22.6	20.0	17.5	20.0
Avg. Yld.	1.8%	1.6%	1.7%	1.6%	1.6%	1.2%	1.5%	1.6%	1.5%	1.7%	2.0%	1.8%

The company looks undervalued at the current price point. Over the past ten years, the company has averaged a PE of 20.5x. We think that a PE of 20x is fair. At the current price, the company now sports a PE of 17.5x. The current dividend yield of 2.0% is higher than its ten-year average of 1.6%. Thus, the company looks undervalued based on dividend yield.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2031
Payout	40%	37%	38%	38%	27%	19%	27%	32%	34%	34%	35%	37%

Service Corporation International's competitive advantage is that it is the most prominent funeral home/cemetery operator in North America. This benefits the company because it can operate more efficiently. This also allows the company to take advantage of the funeral home/cemetery market. The top three companies have only 15% of the total market share in the funeral home/cemetery market. Thus, this leaves plenty of room for industry consolidation, which Service Corporation should be able to take advantage of.

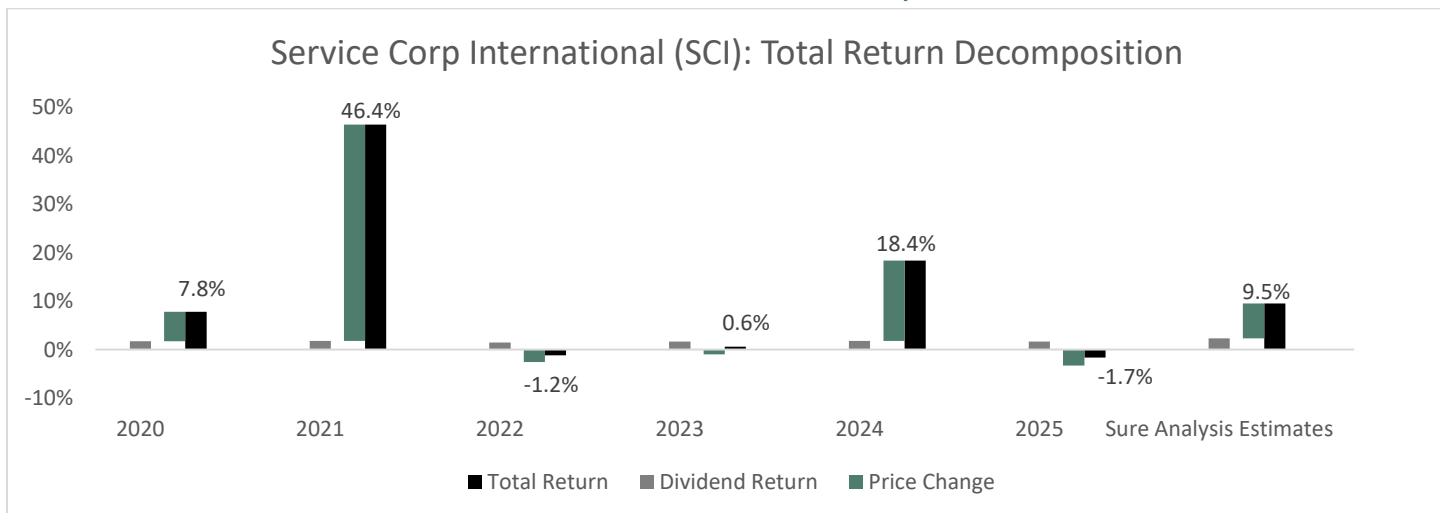

During the Great Recession, the company did well. Earnings were flat in 2008 and only decreased by 2% in 2009. However, the company stock price did plunge 75% through that period. During the COVID-19 pandemic, the company did very well. Earnings grew 53% in 2020 and 57% in 2021. Thus, the company is very resilient to a recession.

The company balance sheet looks alright. The company has an S&P credit rating of BB+, which is not an investment grade. Also, the company currently has a debt-to-equity ratio of 3.1x, which is a little on the high side. However, interest coverage is satisfactory at 3.9x.

Final Thoughts & Recommendation

Service Corp International is a company that goes under the radar for most investors. The company is a solid business that should continue to do well over the long term. We expect the company to generate a 9.5% annualized total return over the next five years. This will mostly come from earnings growth. Thus, we rate the stock as a hold today.
