Overview & Current Events

Founded in 2009, BankUnited, Inc. (BKU) is a regional bank holding company primarily serving commercial and consumer banking needs across Florida and select markets in the Northeastern United States. The company was formerly known as BU Financial Corporation.

Through its principal subsidiary, BankUnited, N.A., the company offers a comprehensive range of financial products and services. Deposit products include checking accounts, savings accounts, money market accounts, and certificates of deposit. Loan products include commercial loans, small business loans, residential mortgages, and commercial real estate loans.

As of Jun. 30, 2026, the company held just over $35 billion in assets on its balance sheet. Core commercial and industrial and commercial real estate loans made up 65.6% of BKU's approximately $23.9 billion in loans. The remaining 34.4% of the company's loans were residential, mortgage warehouse lending, municipal finance, and franchise and equipment loans.

On Jul. 22, BKU released its financial results for the second quarter ended Jun. 30, 2026. The company's net interest income after provision for credit losses grew by 4.1% over the year-ago period to $239.8 million in the quarter. This was driven by a 13 basis point expansion in the net interest margin to 3.06% during the quarter, while provision for credit losses was roughly unchanged ($15.7 million in Q2 2025 and $15.6 million in Q2 2026). BKU's non-interest income rose by 5.1% year-over-year to $29.2 million for the quarter, which was due to growth in other non-interest income and capital markets income offsetting a drop in investment securities gains. The company's diluted EPS increased by 6.6% over the year-ago period to $0.97 in the quarter. That was $0.02 below the analyst consensus during the quarter.

Growth on a Per-Share Basis

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2031

Since 2016, BKU has grown its diluted EPS by 6% annually. In the medium term, we think that its diluted EPS can grow by 7.0% annually. As BKU's cost of deposits continues to improve from lower interest rates being absorbed by the economy, that should help its net interest margin to stay above 3%. The company also opened a new, full-service branch in Westshore, Tampa, Florida earlier this month. What's more, BKU announced plans to open a new St. Petersburg, Florida branch in Q4 2026. Strategic investments like these should fuel more business growth in the future.

Valuation Analysis

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Now	2031
Avg. P/E	18.0	7.3	10.0	11.7	16.9	9.4	9.6	13.6	12.4	12.6	***11.2***	***12.0***
Avg. Yld.	2.2%	2.1%	2.8%	2.3%	2.6%	2.2%	2.8%	3.3%	3.0%	2.7%	***2.9%***	***2.7%***

Over the last decade, BKU's shares have been priced as low as a P/E ratio in the upper single-digits to as much as the high teens. The average P/E ratio over that time was around 12. Moving forward, we believe that a valuation multiple of 12 continues to represent fair value. That's because BKU's growth profile is intact. Compared to the current P/E ratio of 11.2, shares are still slightly discounted.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Now	2031
Payout	40%	15%	28%	27%	44%	20%	27%	45%	37%	35%	***32%***	***33%***

BKU's status as a leading regional bank with financial solutions tailored to customers attracts new customers and helps it retain existing customers. The company's strategic focus hinges on strengthening its commercial banking presence, serving middle-market businesses, professional service firms, and healthcare entities.

BKU's credit quality is decent, with the non-performing assets to total assets ratio sitting at 0.66% as of Jun. 30, 2026. That was a 13-basis-point improvement sequentially. The company's CET1 ratio to close out Q2 2026 at 12.3% was up 10 basis points sequentially. BKU's dividend payout ratio is also on course to be in the low 30% range for 2026. This should give it room to extend its seven-year dividend growth streak for the foreseeable future.

Final Thoughts & Recommendation

BKU's 2.9% dividend yield, 7.0% annual diluted EPS growth prospects, and 1.5% annual valuation multiple upside potential could generate 11.0% annual total returns through 2031. In closing, this is why we're maintaining our Buy rating.
