Overview & Current Events

Greene County Bancorp, Inc. (GCBC), headquartered in Catskill, New York, is a holding company that oversees The Bank of Greene County and manages its cash position. The company focuses on attracting retail deposits and funding from operations and borrowings, which it primarily deploys into residential and commercial real estate mortgages, home equity loans, consumer loans, and commercial business loans. It also provides banking services to local municipalities and operates a real estate investment trust (REIT). Total assets for the company were $3.2 billion at June 30th, 2026. The company was founded in 1889 and has 190 employees.

On July 23rd, 2026, Greene County Bancorp reported fourth-quarter and full-year fiscal 2026 results for the period ending June 30th, 2026. For the fourth quarter, the company reported net income of $11.3 million, an increase of $2.0 million or 21.5%, compared to net income of $9.3 million for the same year-ago quarter. Reported earnings per diluted share for these periods were $0.67 and $0.55, respectively, reflecting a continued strong earnings trajectory.

For fiscal 2026, diluted earnings per share increased 31.7% to $2.41 from $1.83 in fiscal 2025.

Net interest income for the quarter increased by $4.4 million to $21.1 million, from $16.7 million for the prior-year period, driven by growth in average loan and securities balances, higher yields on interest-earning assets, and lower funding costs. The net interest margin for the quarter improved by 49 basis points to 2.86%, up from 2.37% in the previous year, highlighting effective asset repricing and disciplined deposit pricing amid evolving market conditions. Noninterest income increased by 1.6% to $3.8 million, primarily reflecting higher bank-owned life insurance income, service charge income, and debit card fees and incentives, partially offset by lower interest-rate swap fee income.

Total assets reached a new record of $3.18 billion, while net loans climbed to a record $1.73 billion. Total deposits increased to $2.71 billion, reflecting continued growth across customer segments, including increases in NOW deposits, noninterest-bearing deposits, and certificates of deposit. Asset quality remained sound, although non-performing loans to net loans increased to 0.23% and non-performing assets to total assets increased to 0.12%, compared with 0.19% and 0.10%, respectively, in the prior year.

Management expects to maintain balance sheet strength by emphasizing higher-yielding loan and securities growth while continuing to manage deposit pricing discipline in alignment with the Federal Reserve's interest-rate cuts. The company remains committed to delivering consistent performance and serving its communities, supported by its long-term relationship-based banking model and disciplined growth strategy.

Growth on a Per-Share Basis

Year	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2032

consecutive years. Over the last five years, the average annual dividend growth rate is 11.1%. In July 2026, the company increased its quarterly dividend by 10% from $0.10 to $0.11 per share.

Valuation Analysis

Year	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	Now	2032
Avg. P/E	15.9	18.5	15.5	12.0	8.8	11.9	15.1	17.0	14.2	12.4	***12.7***	***14.0***
Avg. Yld.	1.9%	1.2%	1.3%	1.7%	1.9%	1.3%	1.0%	1.1%	1.6%	1.7%	***1.3%***	***1.2%***

During the past decade shares of Greene County Bancorp have traded with an average price-to-earnings ratio of 14.1 and today, it stands at 12.7. We are using 14 times earnings as a fair value baseline, implying the potential for a valuation tailwind. The company's dividend yield is currently 1.3% which is just below the average yield over the past decade of 1.5%, but matches the five-year average yield.

Safety, Quality, Competitive Advantage, & Recession Resiliency

Year	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2032
Payout	46%	44%	52%	34%	38%	42%	31%	32%	32%	23%	***17%***	***17%***

During the past five years, the company's dividend payout ratio has averaged around 32%. Greene County Bancorp's dividend is comfortably covered by earnings. Given the expected earnings growth, there is room for the dividend to continue to grow at least at the same pace and keep the payout ratio around the 25% level.

Greene County Bancorp, Inc. (GCBC) benefits from a strong competitive advantage as a community-focused bank with a deep presence in the Hudson Valley and Capital Region of New York. The bank's consistent recognition on the KBW Bank Honor Roll for thirteen consecutive years highlights its robust earnings performance and prudent risk management, setting it apart from peers. Additionally, its diversified loan portfolio, including residential mortgages, commercial real estate, and business loans, provides a stable revenue base and mitigates risk concentration.

However, GCBC's reliance on net interest income, which remains subject to margin compression in a volatile rate environment, presents challenges. The bank's strategy of maintaining competitive deposit pricing to preserve customer relationships could further pressure profitability if funding costs rise faster than asset yields. This interest rate sensitivity, coupled with a relatively high loan-to-deposit ratio, may limit flexibility in managing liquidity and sustaining earnings if elevated rates persist.

Final Thoughts & Recommendation

Greene County Bancorp, Inc. is a well-established financial institution headquartered in Catskill, New York, with deep roots in the Hudson Valley and Capital Region. The bank has a strong track record of consistent earnings growth and sound financial management, contributing to its 13-year consecutive dividend growth track record. However, its current dividend yield of 1.3% is relatively low for a regional bank, which could be a concern for income-focused investors. We estimate total return potential of 9.2% per year for the next five years based on 6% earnings-per-share growth, the dividend yield, and a valuation tailwind. The shares earn a buy rating.
